Chapter 1900
Madrid Protocol

1901 Overview of the Madrid System of International Registration

1902 International Application Originating From the United States

1902.01 Who Can File

1902.02 Minimum Requirements for Date of Receipt of International Application in USPTO

1902.02(a) Form of International Application

1902.02(b) Basic Application or Registration Number

1902.02(c) Name and Address of Applicant

1902.02(d) Reproduction (Drawing) of Mark

1902.02(e) Color Claim

1902.02(f) Identification of Goods/Services

1902.02(g) Classification in International Applications

1902.02(g)(i) Reclassifying Goods/Services

1902.02(g)(ii) U.S. Classes A, B & 200

1902.02(g)(iii) Kits, Gift Baskets

1902.02(h) List of Contracting Parties

1902.02(i) Fees

1902.02(j) Statement of Entitlement

1902.02(k) Description of Mark

1902.02(l) Indication of Type of Mark

1902.02(m) E-Mail Address

1902.03 Certification of International Application in USPTO

1902.03(a) Petition to Review Refusal to Certify

1900-1 April 2005
1902.04 Date of International Registration

1902.05 IB Requirements for Complete International Application.

1902.06 Examination of Application by IB

1902.07 Irregularities in International Application

1902.07(a) Irregularities that Must Be Remedied by the USPTO

1902.07(b) Irregularities that Must Be Remedied by the Applicant – Applicant Must Respond Directly to the IB

1902.07(b)(i) Fee Irregularities

1902.07(c) Irregularities that Must Be Remedied by the Applicant – Applicant Must Respond Through the USPTO

1902.07(c)(i) Classification of Goods and Services

1902.07(c)(ii) Identification of Goods and Services

1902.07(d) Other Irregularities that Must Be Remedied By Applicant – Applicant May Respond Directly to the IB or Through the USPTO

1902.07(e) Filing Response Directly With the IB

1902.07(f) Responding to Notice of Irregularity Through the USPTO

1902.08 Subsequent Designation - Request for Extension of Protection Subsequent to International Registration

1902.08(a) USPTO Requirements

1902.08(b) Form for Filing Subsequent Designation Through the United States Patent and Trademark Office

1902.08(c) Fees for Subsequent Designation

1902.08(d) IB Requirements for Subsequent Designation

1902.08(e) Irregularities in Subsequent Designation

1902.09 Dependence & “Central Attack”: Restriction, Abandonment, Cancellation or Expiration of Basic Application or Registration During First 5 Years

1902.10 Transformation When the USPTO is the Office of Origin

1902.11 Representative
MADRID PROTOCOL

1902.12  USPTO Must Notify IB of Division or Merger of Basic Application or Registration

1903  Payment of Fees

1903.01  Payment of USPTO Fees
1903.02  Payment of International Fees

1904  Request for Extension of Protection of International Registration to the United States

1904.01  Filing Request for Extension of Protection to United States

1904.01(a)  Section 66(a) Basis
1904.01(b)  Filing Date
1904.01(c)  Declaration of Intent to Use Required
1904.01(d)  Use Not Required
1904.01(e)  Priority
1904.01(f)  Filing Fee
1904.01(g)  Constructive Use
1904.01(h)  Cannot be Based on USPTO Basic Application or Registration

1904.02  Examination of Request for Extension of Protection to the United States

1904.02(a)  Examined as Regular Application
1904.02(b)  Examination of Identification and Classification of Goods/Services in §66(a) Applications
1904.02(c)  Mark Must Be Registrable on Principal Register
1904.02(d)  Refusal Must Be Made Within 18 Months
1904.02(e)  Issuing Office Actions
1904.02(f)  Correspondence Address
1904.02(g)  Mark Cannot Be Amended
1904.02(h)  Jurisdiction

1904.03  Notice of Refusal

1904.03(a)  Notice Must be Sent Within 18 Months
TRADEMARK MANUAL OF EXAMINING PROCEDURE

1904.03(b) Requirements for Notice of Refusal
1904.03(c) §66(a) Applicant Must Respond to Notification of Refusal
1904.03(d) Refusal Pertaining to Less Than All the Goods/Services
1904.03(e) Confirmation or Withdrawal of Provisional Refusal

1904.04 Opposition
1904.05 Certificate of Extension of Protection
1904.06 Assignment of Extension of Protection to the United States
1904.07 Invalidation of Protection in United States
1904.08 Cancellation of International Registration By IB
1904.09 Transformation to Application Under §1 or §44
   1904.09(a) Requirements for Transformation
   1904.09(b) Examination of Transformed Application

1904.10 Affidavits of Use or Excusable Nonuse Required
1904.11 Incontestability
1904.12 Replacement
1904.13 Amendment of Registered Extension of Protection to the United States

1905 Renewal of International Registrations

1906 Communications With International Bureau Regarding International Registrations

1906.01 Recording Changes in International Register
   1906.01(a) Change in Ownership of International Registration
    1906.01(a)(i) Requirements for Submitting Changes in Ownership of International Registration Through the USPTO
    1906.01(a)(ii) International Fees for Recording Changes of Ownership of International Registration
    1906.01(a)(iii) Effect of Change of Ownership of International Registration
    1906.01(a)(iv) Dividing an International Registration After Change of Ownership With Respect to Some But Not All of the Goods

1900-4 April 2005
MADRID PROTOCOL

1906.01(b) Restriction of Holder’s Rights of Disposal
1906.01(c) Change of the Holder's Name or Address
1906.01(d) Change of Name or Address of Representative
1906.01(e) Limitation, Renunciation, Cancellation of International Registration
1906.01(f) Correction of Errors in International Registration
1906.01(g) Merger of International Registrations
1906.01(h) License
1906.01(i) Changes That Cannot Be Made to International Registration

The Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks ("Madrid Protocol") is an international treaty that allows a trademark owner to seek registration in any of the countries or intergovernmental organizations that have joined the Madrid Protocol by submitting a single application, called an international application. The International Bureau ("IB") of the World Intellectual Property Organization ("WIPO"), in Geneva, Switzerland administers the international registration system.

1900-5  April 2005

1901 Overview of the Madrid System of International Registration

The Madrid system of international registration is governed by two treaties: the Madrid Agreement Concerning the International Registration of Marks, which dates from 1891, and the Protocol Relating to the Madrid Agreement, which became effective December 1, 1995. The United States is party only to the Protocol, not to the Agreement.

The Madrid system is administered by the IB. To apply for an international registration under the Madrid Protocol, an applicant must be a national of, be domiciled in, or have a real and effective business or commercial establishment in one of the countries or intergovernmental organizations that are members of the Protocol (“Contracting Parties”). The application must be based on one or more trademark application(s) filed in or registration(s) issued by the trademark office of one of the Contracting Parties (“basic application(s)” or “basic registration(s)”). The international application must be for the same mark and include a list of goods/services that is identical to or narrower than the list of goods/services in the basic application or registration. The international application must designate one or more Contracting Parties in which an extension of protection of the international registration is sought.

The applicant must submit the international application through the trademark office of the Contracting Party in which the basic application or registration is held (“Office of Origin”). The Office of Origin must certify that the information in the international application corresponds with the information in the basic application or registration and forward the international application to the IB. If the IB receives the international application within two months of the date of receipt in the Office of Origin, the date of the international registration is the date of receipt in the Office of Origin. If the IB does not receive the international application within two months of the date it was received by the Office of Origin, the date of the international registration is the date the international application was received by the IB. See TMEP §1902.04 for information regarding filing requirements that may affect the international registration date.

The international registration is dependent on the basic application or registration for five years from the international registration date. If the basic application or registration is abandoned, cancelled or expired, in whole or in part, during this five-year period, the IB will cancel the international registration accordingly. See TMEP §1902.09 for further information.
The holder of an international registration may request protection in additional Contracting Parties by submitting a subsequent designation. A subsequent designation is a request by the holder of an international registration for an extension of protection of the registration to additional Contracting Parties.

Each Contracting Party designated in an international application or subsequent designation will examine the request for extension of protection as a national trademark application under its domestic laws. Under Article 5 and Common Regs. 16 and 17, there are strict time limits (a maximum of 18 months) for the trademark office of a Contracting Party to enter a refusal of an extension of protection. If the Contracting Party does not notify the IB of a refusal within this time period, the mark is automatically protected. However, the extension of protection may be invalidated in accordance with the same procedures for invalidating a national registration, e.g., by cancellation.

The Madrid Protocol may apply to the USPTO in three ways:

- **Office of Origin.** The USPTO is the Office of Origin if an international application or registration is based on an application pending in or a registration issued by the USPTO. See TMEP §§1902 et seq.

- **Office of a Designated Contracting Party.** The USPTO is the Office of a Designated Contracting Party if the holder of an international registration requests an extension of protection of that registration to the United States. See TMEP §§1904 et seq.

- **Office of the Contracting Party of the Holder.** If the holder of an international registration is a national of, is domiciled in, or has a real and effective industrial or commercial establishment in the United States, the holder can file certain requests with the IB through the USPTO, such as requests to record changes of ownership (see TMEP §1906.01(a)(i)) and restrictions on the holder’s right to dispose of an international registration (see TMEP §1906.01(b)). The expression “Contracting Party of the Holder” includes the “Office of Origin,” as well as any other Contracting Party in which a holder is a national, is domiciled, or has a real and effective industrial or commercial establishment. Common Reg. 1(xxvi/bis).

1902 International Application Originating From the United States

This section covers international applications and registrations originating from the United States, i.e., international registrations based on an application pending in the USPTO or a registration issued by the USPTO. See TMEP §§1904 et seq. for information about requests for extension of protection to the United States by the holder of an international registration originating in
another country. International applications originating from the United States are processed by the USPTO’s Madrid Processing Unit (“MPU”).

1902.01 Who Can File

Under Section 61 of the Trademark Act and Article 2(1), a qualified owner of a basic application pending in the USPTO or a qualified owner of a basic registration issued by the USPTO may file an application for international registration through the USPTO. To qualify, the international applicant must:

(1) Be a national of the United States;

(2) Be domiciled in the United States; or

(3) Have a real and effective industrial or commercial establishment in the United States.

If joint applicants file, each applicant must meet at least one of these requirements. Common Reg. 8(2).

1902.02 Minimum Requirements for Date of Receipt of International Application in USPTO

The minimum requirements for accordance of a date of receipt of an international application in the USPTO are set forth in 37 C.F.R. §7.11.

§7.11 Requirements for international application originating from the United States.

(a) The Office will grant a date of receipt to an international application that is either filed through TEAS, or typed on the official paper form issued by the International Bureau. The international application must include all of the following:

(1) The filing date and serial number of the basic application and/or the registration date and registration number of the basic registration;

(2) The name of the international applicant that is identical to the name of the applicant or registrant as it appears in the basic application or basic registration and applicant’s current address;

(3) A reproduction of the mark that is the same as the mark in the basic application and/or registration and that meets the requirements of §2.52.

(i) If the mark in the basic application and/or registration is depicted in black and white and the basic application or registration does not include a color claim, the reproduction of the mark in the international application must be black and white.

(ii) If the mark in the basic application or registration is depicted in black and white and includes a color claim, the international application must include both a black and white reproduction of the mark and a color reproduction of the mark.
MADRID PROTOCOL

(iii) If the mark in the basic application and/or registration is depicted in color, the reproduction of the mark in the international application must be in color.

(iv) If the international application is filed on paper, the mark must be no more than 3.15 inches (8 cm) high by 3.15 inches (8 cm) wide, and must appear in the box designated by the International Bureau on the International Bureau's official form;

(4) A color claim as set out in §7.12, if appropriate;

(5) A description of the mark that is the same as the description of the mark in the basic application or registration, as appropriate;

(6) An indication of the type of mark if the mark in the basic application and/or registration is a three-dimensional mark, a sound mark, a collective mark or a certification mark;

(7) A list of the goods and/or services that is identical to or narrower than the list of goods and/or services in each claimed basic application or registration and classified according to the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks;

(8) A list of the designated Contracting Parties. If the goods and/or services in the international application are not the same for each designated Contracting Party, the application must list the goods and/or services in the international application that pertain to each designated Contracting Party;

(9) The certification fee required by §7.6;

(10) If the application is filed through TEAS, the international application fees for all classes, and the fees for all designated Contracting Parties identified in the international application ( see §7.7);

(11) A statement that the applicant is entitled to file an international application in the Office, specifying that applicant: is a national of the United States; has a domicile in the United States; or has a real and effective industrial or commercial establishment in the United States. Where an applicant’s address is not in the United States, the applicant must provide the address of its U.S. domicile or establishment; and

(12) If the international application is filed through TEAS, an e-mail address for receipt of correspondence from the Office.

(b) For requirements for certification, see §7.13.

1902.02(a) Form of International Application

Trademark Rule 7.11(a), 37 C.F.R. §7.11(a), requires that an international application be filed either through the Trademark Electronic Application System (“TEAS”), or on the official paper form issued by the IB.
TEAS Form

TEAS will require the applicant to select between two different forms, a prepopulated form or a free-text form. The applicant should use the prepopulated form if: (1) the international application is based on a single basic application or registration; and (2) applicant’s changes to the international application are limited to:

- Narrowing the list of goods or services;
- Changing the classification;
- Changing the applicant’s address; and/or
- Attaching a color reproduction of the mark where the mark in the basic application or registration is in black and white with a color claim (see TMEP §1902.02(d)).

The prepopulated form will automatically display the exact information that is in the USPTO database for one specific U.S. serial number or registration number. However, if the international application is based on a newly filed application that has not yet been uploaded into the trademark database, the TEAS form will instruct the applicant to wait for the USPTO to upload the data or use the free-text form. It normally takes 48 to 72 hours for the USPTO to upload a newly filed application. To determine whether the basic application data has been entered, the applicant should check the TARR database on the USPTO website at: http://tarr.uspto.gov.

The free-text form should be used if an applicant wishes to change other data in the international application, or if the international application is based on more than one basic application or registration.

Paper Form

When filing on paper, applicants must submit the official international application form issued by the IB, the MM2 form, to the USPTO. The MM2 form is available on the IB website at http://www.wipo.int/madrid/en/. The IB will not accept paper applications that are not presented on the official IB form. The form cannot be handwritten. Article 3(1); Common Regs. 9(2)(a) and 11(4)(a)(i); Madrid Admin. Instr. §2(b). The applicant should complete the MM2 form online, print the completed form, and submit it to the USPTO by mail.

The completed paper application form must be mailed to the following address:

Commissioner for Trademarks
P.O. Box 16471
37 C.F.R. §§2.190(e) and 7.4(b). International applications may be delivered by hand or courier to the Trademark Assistance Center (“TAC”), at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m., Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c).

If an international application is mailed to the USPTO via the Express Mail Service of the United States Postal Service (“USPS”), the USPTO will deem that the application was received in the USPTO on the day it was deposited with the USPS, provided that the applicant complies with the requirements for correspondence sent by Express Mail set forth in 37 C.F.R. §2.198. See TMEP §305.03 regarding submission of documents by Express Mail. The certificate of mailing or transmission procedures of 37 C.F.R. §2.197 do not apply to international applications. 37 C.F.R. §§2.197(a)(2)(ii) and 7.4(e).

The applicant should include a self-addressed, stamped postcard with the international application. Upon receipt of the international application, the USPTO will place a control number and a label indicating the receipt date on the papers and return the postcard to the applicant. The applicant should reference the control number whenever contacting the USPTO about the application.

International applications cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(1).

1902.02(b) Basic Application or Registration Number

The international application must include the filing date and serial number of the basic application, or the registration date and registration number of the basic registration. 37 C.F.R. §7.11(a)(1). The USPTO will not certify the international application if this information is incorrect or is omitted.

The international application must be based on an active application or registration. It cannot be based on an abandoned application, or on a cancelled or expired registration.

1902.02(c) Name and Address of Applicant

Under Section 61 of the Trademark Act, only the owner of the basic application or registration can file an international application. 15 U.S.C. §1141a(a). The international application must include the name and current
The name of the applicant must be identical to the name of the applicant/registrant in the basic application or registration. 37 C.F.R. §7.11(a)(2).

On the prepopulated TEAS form, the applicant’s name cannot be changed, so the international applicant’s name will always be identical to the name of the owner of record for the basic application or registration.

When the applicant submits a paper form or a free-text TEAS form, an MPU paralegal will check the Trademark Reporting and Monitoring (“TRAM”) System to verify that the name of the owner of the basic application or registration is identical to the name of the international applicant.

If the names are not identical, the MPU Paralegal will check the Assignment Services Division’s database to determine whether an assignment or other document affecting title that is not reflected in TRAM has been recorded in the Assignment Services Division. If assignment records do not show a clear chain of title to the international applicant, the USPTO will notify the applicant that the application cannot be certified. If Assignment records do show a clear chain of title, the MPU Paralegal will update the ownership field in TRAM.

Because a delay in certifying and forwarding an international application to the IB may affect the date of the international registration, any request to record a change in ownership of a U.S. basic application or registration should be filed well in advance of the filing of the international application to allow sufficient processing time. The USPTO strongly recommends use of the Electronic Trademark Assignment System (“ETAS”), at http://etas.uspto.gov. Assignments filed electronically are recorded much faster than assignments filed on paper. If there is an unrecorded change in ownership, and the international applicant does not use ETAS to record the change, the USPTO may be unable to certify or forward the international application to the IB within two months after the application was received in the USPTO. In this situation, the date of the international registration will be the date of receipt of the application in the IB. See TMEP §1902.04.

Applicants can search the Assignment Services Division’s database at http://assignments.uspto.gov/assignments/ to determine whether an assignment or other document of title has been recorded, and can search the TARR database at http://tarr.uspto.gov/, to determine whether the ownership information in the Trademark databases has been updated. See TMEP §§504 et seq. regarding automatic updating of ownership information in the TRAM and TARR databases.

If an international applicant is relying on an assignment (or other document transferring title) that has recently been filed for recordation but has not yet been recorded in the Assignment Services Division, the applicant should include a copy of the assignment with the international application.
Reproduction (Drawing) of Mark

An international application must include a reproduction of the mark that (1) is the same as the mark in the basic application or registration; and (2) meets the requirements of 37 C.F.R. §2.52. 37 C.F.R. §7.11(a)(3).

For paper filers, the mark must appear no larger than 3.15 inches (8 cm) high by 3.15 inches (8 cm) wide and must be placed in the box designated by the IB on the MM2 form. 37 C.F.R. §§2.52(d) and 2.54(b); Common Reg. 9(4)(a)(v); Guide to International Registration, Paras. B.II.14.01 et seq. (2004). For international applications filed electronically, an image of the mark taken from TRAM will appear automatically on the prepopulated TEAS form. If an applicant uses the free-text TEAS form, the applicant must type the mark in the appropriate field or attach a digitized image of the mark that meets the requirements of 37 C.F.R. §2.35(c).

Standard Character Reproductions. If the mark in the basic application or registration is in standard characters, the reproduction of the mark in the international application must be in standard characters. To claim standard characters, an applicant must check the appropriate box on the IB’s official application form MM2, or on the TEAS form. The applicant may not claim standard characters in the international application unless the mark in the basic application or registration is in standard character (or typed) format. See TMEP §§807.03 et seq. for information about standard character drawings in applications for registration of marks in the United States. The USPTO’s standard character chart is posted on the USPTO website at http://www.uspto.gov/teas/StandardCharacterSet.html.

Special Form Reproductions. If the mark in the basic application or registration is in special form, the reproduction of the mark in the international application must be in special form.

Use of Color. If the mark in the basic application or registration is depicted in black and white and does not include a color claim, the reproduction of the mark in the international application must be black and white. If the mark in the basic application or registration is in color, the reproduction of the mark in the international application must be in color. If the mark in the basic application or registration is depicted in black and white and includes a color claim, the international application must include both a black and white reproduction of the mark and a color reproduction of the mark that meet the requirements of 37 C.F.R. §2.52. 37 C.F.R. §7.11(a)(3); Common Reg. 9(4)(a)(vii). For example, if the basic application or registration includes a color claim and a black and white drawing that depicts the color by the use of color lining or by a statement describing the color, an applicant must include both a color reproduction of the mark and a black and white reproduction of the mark. See the note regarding color drawings in United States basic applications or registrations in TMEP §1902.02(e).
If filing on paper, the applicant must place the drawings in the appropriate boxes designated by the IB on the MM2 form. If using the TEAS prepopulated form, the black and white drawing will automatically prepopulate the form, and the applicant must attach the color reproduction of the mark. For the TEAS free-text form, however, the applicant must attach a digitized image of both the black and white reproduction of the mark and the color reproduction of the mark. See TMEP §§807 et seq. for general information about the requirements for drawings in applications for registration of marks in the United States.

1902.02(e) Color Claim

If color is claimed as a feature of the mark in the basic application and/or registration, the international application must include a statement that color is claimed as a feature of the mark and set forth the same name(s) of the color(s) claimed in the basic application and/or registration. 37 C.F.R. §§7.11(a)(4) and 7.12(a).

If the basic application or registration includes a black and white reproduction with a description of the mark indicating that color is used on the mark, or a reproduction that is lined for color (see Note below), the USPTO will presume that color is a feature of the mark, unless the basic application or registration includes a statement that “no claim is made to color” or “color is not a feature of the mark.”

If color is not claimed as a feature of the mark in the basic application and/or registration, an applicant may not claim color as a feature of the mark in the international application. 37 C.F.R. §7.12(b).

Note Regarding Color Drawings in United States Basic Applications or Registrations: Prior to November 2, 2003, the USPTO did not accept color drawings. An applicant who wanted to show color in a mark had to submit a black and white drawing, with a statement identifying the color(s) and describing where they appeared in the mark. Alternatively, the applicant could submit a black and white drawing that showed color by using the USPTO’s color lining chart (see TMEP §808.01(d)). The USPTO began accepting color drawings on November 2, 2003. Effective November 2, 2003, the Office no longer accepts black and white drawings with a color claim, or drawings that show color by use of lining patterns. 37 C.F.R. §2.52(b)(1).

1902.02(f) Identification of Goods/Services

An international application must include a list of goods/services that is identical to or narrower than the goods/services in the basic application or registration. 37 C.F.R. §7.11(a)(7). If the applicant makes any change that broadens the scope of the identification of goods/services, the USPTO will not certify the international application.
The prepopulated TEAS form will include the list of goods/services in the basic application or registration. An applicant may edit the list of goods/services by either deleting particular goods/services or revising the wording in the identification. On the MM2 paper form and the free-text TEAS form, the applicant must enter the goods/services manually and may omit goods or services, or revise the wording in the identification.

If the list of goods/services in an international application is not identical to the list of goods/services in the basic application or registration, the MPU paralegal must determine whether the applicant has identified any goods/services that are broader than the goods/services in the basic application or registration.

1902.02(g) Classification in International Applications

The goods/services should be classified according to the current version of the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks (“Nice Agreement”). 37 C.F.R. §7.11(a)(7). Both the prepopulated and the free-text TEAS forms will allow an applicant to change the classification of goods/services in an international application.

The MPU does not certify classification of the goods/services in an international application. Therefore, the owner of the United States application or registration does not have to classify the goods/services in the international application in the same class(es) in which they are classified in the United States basic application or registration. However, failure to properly classify goods or services in an international application according to the international classification system will result in an IB notice of irregularity. Because the final decision on the classification of the goods/services in an international application rests with the IB, the USPTO will not reclassify or give advice in response to specific inquiries regarding the reclassification of particular goods/services. The IB provides guidance on its website, currently at http://www.wipo.int/classifications/en/. See TMEP §1401.02(a) for further information about the international classes, and TMEP §§1902.07 et seq. for further information about irregularities in the international application.

1902.02(g)(i) Reclassifying Goods/Services

If the goods or services in the basic application or registration are classified in Classes A, B or 200 (which are not part of the international classification system) (see TMEP §1902.02(g)(ii)), or are classified in other classes under the old U.S. classification system, it is advisable to reclassify the goods/services into international classes in the international application. Applicants using the prepopulated TEAS form will have to reclassify goods or services into international classes because the form does not recognize Classes A, B or 200.
In addition, if the identification of goods in the basic application or registration comprises kits or gift baskets (see TMEP §1902.02(g)(iii)), it is advisable for the international applicant to either narrow the identification in order to classify the goods in a single international class, or pay additional fees for additional international classes.

In the situations discussed below, it is advisable for the international applicant to reclassify the goods/services in the international application, in order to avoid issuance of a notice of irregularity by the IB.

1902.02(g)(ii) U.S. Classes A, B & 200

Classes A, B & 200 are classes from the old U.S. classification system that are still used in the United States to classify certification marks for goods (Class A), certification marks for services (Class B) and collective membership marks (Class 200). These classes are not included in the International Classes under the Nice Agreement. Therefore, an international application based on a U.S. application or registration in U.S. Classes A, B or 200 should be reclassified. If the applicant does not reclassify its goods or services into the proper International Class, the IB will issue a notice of irregularity.

Amendment of the classification in the corresponding basic U.S. application or registration is not permitted.

U.S. Classes A & B

It has been the longstanding practice in the United States to accept identifications of goods or services for Classes A, B and 200 that are broader than those that would be accepted in applications for goods/services in other classes. TMEP §1306.06(f). In many situations, it will be difficult to reclassify these broad identifications into appropriate international classes. For example, a goods certification mark in U.S. Class A for “remanufactured, refurbished and reconditioned electrical equipment” could include goods in International Classes 7, 9 and/or 11, and possibly others. In such situations, the U.S. applicant should specify the type of electrical equipment that is being certified, and either apply and pay the fees for all appropriate classes, or limit the specification of “electric equipment” to cover goods in one class only.

In some certification mark applications/registrations, the goods/services will be easily classified in one class of the international classification system. For example, a services certification mark for “testing laboratory and calibration laboratory accreditation services” would be classified in International Class 42. However, it is important to be aware that multiple classes may be required when reclassifying goods/services from U.S. Classes A and B.
**U.S. Class 200**

Class 200 presents a similar problem and a similar solution. A broad identification of the subject organization in a collective membership mark application or registration is difficult to reclassify. For example, the wording “indicating membership in a conservative youth organization” is too broad and vague for classification in an international class. On the other hand, “indicating membership in an organization of consulting communications engineers” is easily classified in International Class 42. As with the certification marks, an applicant may have to clarify, specify, or narrow the description of the organization in the international application in order to classify the organization in an International Class.

**1902.02(g)(iii) Kits, Gift Baskets**

The USPTO policy regarding the identification and classification of kits and gift baskets differs from the policy of the IB regarding the classification of these goods.

The USPTO permits registration of a kit or gift basket in a single international class, even if the identification of goods lists items that are classified in other classes. The IB and most foreign countries will not accept an identification of goods in a particular class that includes a reference to goods that are classified in other classes. If an international application includes kits and gift baskets, and the identification of goods refers to items classified in more than one class, the IB is likely to issue a notice of irregularity requiring the applicant to separate the goods into their respective classes and to pay additional fees for added classes. To avoid issuance of a notice of irregularity by the IB, an international applicant may wish to either narrow the identification to refer only to items in a single international class, or submit additional fees for multiple international classes.

**1902.02(h) List of Contracting Parties**

An international application must list at least one Contracting Party (i.e., country or intergovernmental organization party to the Madrid Protocol) in which the applicant seeks an extension of protection of the international registration. 37 C.F.R. §7.11(a)(8). If the goods/services in the international application are not the same for all designated Contracting Parties, the application must include a list of the goods/services in the international application that pertain to each designated Contracting Party.

An international applicant designating the European Community for an extension of protection may claim seniority of one or more earlier registrations in or for a Member State of the European Community for the same mark covering the same goods or services in the international application. A claim of seniority must be presented on the IB’s official form, MM17, and annexed.
to the international application. Common Reg. 9(g)(i). The USPTO does not have a TEAS form for a claim of seniority. Therefore, an applicant wishing to claim seniority should not submit an international application through TEAS. Instead, the applicant should complete both the MM2 and MM17 forms online, print the completed forms, and mail them to the USPTO.

An international applicant may not designate the United States as a Contracting Party. Section 65(b) of the Trademark Act, 15 U.S.C. §1141e(b); Article 3bis, TMEP §1904.01(h).

1902.02(i) Fees

USPTO Certification Fee. An international application must include the USPTO certification fee for each class of goods/services, or it will not be certified. The certification fee per class increases if the international application is based on more than one basic application or registration. 37 C.F.R. §§7.6(a) and 7.11(a)(9).

International Fees. Trademark Rule 7.11(a)(10) requires that if an international application is submitted through TEAS, the international fees for all classes and all designated Contracting Parties be paid at the time of submission. International fees for paper applications must be paid directly to the IB, and may be paid either before or after the international application is submitted to the USPTO. 37 C.F.R. §7.7(c). However, international fees paid after the IB receives the international application could result in a notice of irregularity issued by the IB (see TMEP §1902.07(b)(i)). Applicants filing on paper may submit a bank check for the international fees in Swiss francs made payable to the IB with the international application. If the international application meets the requirements for certification, the USPTO will forward the check with the international application to the IB. If the USPTO denies certification, the check will be returned with the international application to the applicant.

See also TMEP §1903.02 regarding payment of international fees.

1902.02(j) Statement of Entitlement

An international application must include a statement that the applicant is entitled to file an international application, specifying that the applicant: (i) is a national of the United States; (ii) has a domicile in the United States; or (iii) has a real and effective industrial or commercial establishment in the United States. Where an applicant’s address is not in the United States, the applicant must provide the address of the U.S. domicile or establishment. Section 61 of the Trademark Act, 15 U.S.C. §1141a; 37 C.F.R. §7.11(a)(11).

For joint applicants, the application must include a statement of entitlement for each applicant.
1902.02(k) Description of Mark

If the basic application or registration includes a description of the mark, an international application must include the same description. 37 C.F.R. §7.11(a)(5). The applicant cannot include a description of the mark in the international application if the basic application or registration does not contain a description of the mark.

1902.02(l) Indication of Type of Mark

An international application must include an indication of the type of mark, if the mark in the basic application or registration is a three-dimensional mark, a sound mark, a collective mark, or a certification mark. 37 C.F.R. §7.11(a)(6).

1902.02(m) E-Mail Address

An international application must include an e-mail address for receipt of correspondence from the USPTO, if the international application is filed through TEAS. 37 C.F.R. §7.11(a)(12). Applicants submitting international applications on paper are encouraged to include an e-mail address on the form.

1902.03 Certification of International Application in USPTO

Under Section 62 of the Trademark Act, 15 U.S.C. §1141b, if the information contained in an international application corresponds to the information in the basic application or basic registration, the USPTO will certify the international application and forward it to the IB.

If an applicant uses the prepopulated TEAS form without changing any of the information (see TMEP §1902.02(a)), the international application will be certified and forwarded to the IB without MPU review. In all other cases, an MPU paralegal must review the data in the international application before it can be certified.

Under Article 3(1) and Common Reg. 9(5)(d), the USPTO must sign the international application and certify:

- The date on which the USPTO received the international application;
- That the mark in the international application is the same as the mark in the basic application or registration;
- That the applicant is the same person or entity listed as the owner of the basic application or registration;
- That the goods/services identified in the international application are covered by the basic application or registration;
• That the applicant is qualified to file an international application under Section 61 of the Trademark Act and Article 2(1);

• That, if the international application includes a description of the mark, the description is consistent with the basic application or registration (Common Regs. 9(4)(a)(xi) and 9(5)(d)(iii));

• That, if the international application indicates that the mark is a color or combination of colors, this indication is consistent with the basic application or registration (Common Regs. 9(4)(a)(vii\textsuperscript{bis}) and 9(5)(d)(iii));

• That, if color is claimed as a feature of the mark in the basic application or registration, the same claim is included in the international application (Common Reg. 9(5)(d)(v));

• That, if the international application indicates that the mark is three-dimensional, this indication is consistent with the basic application or registration (Common Regs. 9(4)(a)(viii) and 9(5)(d)(iii));

• That, if the international application indicates that the mark is a sound mark, this indication is consistent with the basic application or registration (Common Regs. 9(4)(a)(ix) and 9(5)(d)(iii));

• That, if the international application indicates that the mark is a collective or certification mark, this indication is consistent with the basic application or registration (Common Regs. 9(4)(a)(x) and 9(5)(d)(iii)).

If the international application meets the requirements of 37 C.F.R. §7.11(a), the USPTO will certify the application and send it to the IB. 37 C.F.R. §7.13(a). The MPU will send a notice of certification to the applicant.

If the application does not meet the requirements of 37 C.F.R. §7.11(a), the USPTO will not certify the application, or forward it to the IB. The USPTO will notify the applicant of the reason(s) why the application cannot be certified. The USPTO will refund any international fees paid through TEAS. The USPTO certification fee will not be refunded. 37 C.F.R. §7.13(b).

An applicant should periodically check the status of the international application online using TARR. If the applicant does not receive a notice of certification or refusal within two months of filing, the applicant should contact the MPU. However, once an international application is certified and forwarded to the IB, questions concerning the international application should be directed to the IB. See TMEP §1906 for information on contacting the IB. The USPTO will update TARR when the IB issues a certificate of international registration or a notice of irregularity concerning the international application.
MADRID PROTOCOL

See TMEP §1902.06 regarding the IB’s examination of international registrations.

1902.03(a) Petition to Review Refusal to Certify

If an applicant believes that a refusal to certify an international application was erroneous, the applicant may file a petition to review the refusal. The petition should refer to the USPTO control number and include the petition fee required by 37 C.F.R. §2.6. If the denial of certification was due to USPTO error, the USPTO will grant the petition and refund the petition fee. See TMEP Chapter 1700 for information about petitions.

The petition should be filed immediately. If the international application is not certified within two months of the date of receipt of the application in the USPTO, the date of registration will be affected. Article 3(4); Common Reg. 15. See TMEP §1902.04.

The petition should be mailed to:

Commissioner for Trademarks
P.O. Box 16471
Arlington, VA 22215-1471
Attn: MPU

37 C.F.R. §§2.190(e) and 7.4(b). If the applicant is paying the petition fee using a USPTO deposit account, the applicant may e-mail the request to madridpetitions@uspto.gov, with an authorization to charge the petition fee to a deposit account.

The applicant can also hand-deliver the petition to the Trademark Assistance Center at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c).

1902.04 Date of International Registration

If the IB receives an international application within two months of the date of receipt in the USPTO, the date of the international registration is the date of receipt in the USPTO. If the IB does not receive the international application within two months of the date of receipt in the USPTO, the date of the international registration is the date of receipt in the IB. Article 3(4); Common Reg. 15.

Common Reg. 15 sets forth the IB’s minimum requirements that may affect the date of the international registration:
• Adequate identification of the applicant with sufficient information to contact the applicant or the applicant’s representative;

• Reproduction of the mark;

• Indication of the goods or services; and

• Designation of Contracting Party or Parties for which extension of protection is sought.

If any of these elements is omitted from the international application, the IB will notify both the applicant and the USPTO. If the missing element(s) is received in the IB within two months of the date of receipt of the international application in the USPTO, the international registration will bear the date of receipt of the international application in the USPTO. If the missing element(s) is not received in the IB within two months of the date of receipt of the international application in the USPTO, the date of the international registration is the date of receipt of the last of the missing elements in the IB. In either case, the missing element(s) must be received in the IB on or before the deadline specified in the notice of irregularity. Article 3(4); Common Reg. 15(1).

See TMEP §§1902.07 et seq. for information about correcting irregularities in an international application.

1902.05 IB Requirements for Complete International Application.

The requirements for an international application are set forth in Article 3 and Common Reg. 9. If the application meets the minimum requirements set forth in 37 C.F.R. §7.11(a) (see TMEP §§1902.02 et seq.), the USPTO will certify the application and send it to the IB. The USPTO will not examine the international application to determine whether it is complete. Only the IB will examine it for completeness. The requirements for a complete international application originating from the United States are:

• Name and Address. The name and address of the applicant;

• Basic Application(s) or Registration(s). The serial number(s) and filing date(s) of the basic application(s), or the registration number(s) and registration date(s) of the basic registration(s). The international application may be based on more than one basic application or registration;

• Entitlement to File. An indication that the applicant (1) is a national of the United States; (2) is domiciled in the United States; or (3) has a real and effective industrial or commercial establishment in the United States (Common Reg. 9(5)(b));
MADRID PROTOCOL

- **Fees.** The international application must include the basic filing fee charged by the IB; the supplementary fee for each class of goods or services beyond 3 classes; the complementary fee for designation of each country to which extension of the international registration is sought; and the transmittal fee that the USPTO charges to process the international application. Articles 8(1) and 8(2); Common Regs. 9(4)(a)(xiv), 10(2) and 34.

- **Goods/Services.** A list of the goods or services on or in connection with which the applicant seeks international registration (Article 3(2); Common Reg. 9(4)(a)(xiii));

- **Class.** The international class of goods or services, if known (Article 3(2); Common Reg. 9(4)(a)(xiii));

- **Contracting Parties.** The names of the Contracting Party or Parties in which an applicant seeks protection (Common Reg. 9(4)(a)(xv));

- **Declaration of Intent to Use.** A verified statement that applicant has a bona fide intention to use the mark in commerce on or in connection with the goods or services listed in the application, if any of the Contracting Parties designated in the international application require such a declaration (Common Reg. 9(5)(f)). Under Common Reg. 7(2), a Contracting Party may notify the IB that it requires a signed declaration of intention to use the mark.

- **Reproduction (Drawing) of Mark.** A clear reproduction of the mark that is no more than 8 cm high by 8 cm wide. Common Reg. 9(4)(a)(v). The mark must be the same as the mark in the basic application or registration. If the mark in the basic application or registration has color, the mark in the international application must be in color. If the mark in the basic application or registration is black and white, the mark in the international application must be in black and white. If the mark in the basic application or registration is presented in black and white but contains a color claim, the applicant must submit both a black and white and a color reproduction. Common Reg. 9(4)(a)(vii);

- **Color.** If color is claimed as a distinctive feature of the mark in the basic application or registration, the international application must include an indication to that effect, and must set forth the name of the color(s) (Article 3(3); Common Reg. 9(4)(a)(vii)). If the mark in the basic application or registration consists of color(s), the international application must include a statement to that effect (Common Reg. 9(4)(a)(vii bis));

- **Transliteration.** If the mark consists of or contains non-Latin characters or numerals other than Arabic or Roman numerals, a
transliteration of that matter in Latin characters and Arabic numerals (Common Reg. 9(4)(a)(xii));

- **Signature.** The USPTO must sign the international application. The IB does not require the applicant’s signature (Common Reg. 9(2)(b));

- **Three-Dimensional Mark.** If the mark is three-dimensional, the indication “three-dimensional mark” (Common Reg. 9(4)(a)(viii));

- **Sound Mark.** If the mark is a sound mark, the indication “sound mark” (Common Reg. 9(4)(a)(ix));

- **Collective or Certification Mark.** If the mark is a collective mark or a certification mark, an indication to that effect (Common Reg. 9(4)(a)(x));

- **Standard Characters.** If the applicant wishes that the mark be considered as a mark in standard characters, an indication to that effect (Common Reg. 9(4)(a)(vi));

- **Description of Mark.** If there is a description of the mark in the basic application or registration, the international application must include the same description. 37 C.F.R. §7.11(a)(5) and Common Reg. 9(4)(a)(xi).

- **Language.** International applications originating from the United States must be in English. 37 C.F.R. §7.3; Common Regs. 6(1)(b) and 6(2)(b)(iii).

- **Indication of Second Language.** If an applicant designates the European Community as a Contracting Party, applicant is required to indicate a second language, in addition to the language in the international application (Common Reg. 9(5)(g)(i)).

### Additional Elements That May Be Included in International Application

The following elements may also be included, but are not mandatory under the Common Regulations:

- **Translation.** If the mark consists of or contains non-English wording, an English translation (Common Reg. 9(4)(b)(iii));

- **Citizenship/State of Incorporation or Organization** (Common Regs. 9(4)(b)(i) and (ii)). The citizenship of the applicant(s); or if the applicant is a juristic person, the state or nation under the laws of which the applicant is organized;

- **Disclaimer.** If an applicant wishes to disclaim any element of the mark, the applicant may do so (Common Reg. 9(4)(b)(v));
• **Representative.** See TMEP §1902.11;

• **Priority.** An international applicant may claim a right of priority within the meaning of Article 4 of the Paris Convention if: (1) the international application contains a claim of priority; and (2) the filing date of the application that forms the basis of the priority claim (within the meaning of Article 4 of the Paris Convention) was not more than six months before the date of the international registration. Madrid Protocol Article 4(2) and Common Reg. 9(4)(a)(iv). The applicant must specify the serial number (if available), filing date and country of the earlier filing. If the earlier filing does not relate to all the goods/services listed in the international application, the applicant must set forth the goods/services to which it does relate. **NOTE For Paper Filers:** If the applicant is claiming priority based upon the basic application, the applicant should list the U.S. application serial number and filing date in **both** Box 5 (Basic Application Section) and Box 6 (Priority Claimed Section) of the MM2 international application form.

• **Seniority.** An applicant designating the European Community may claim seniority of one or more earlier registrations in or for a Member State of the European Community for the same mark covering the same goods or services in the international application by indicating the following four elements: (1) each Member State in or for which the earlier mark is registered; (2) the date from which the registration was effective; (3) the registration number; and (4) the goods/services covered by the earlier registration (Common Reg. 9(5)(g)(i)). The information must be submitted on the IB's official MM17 form. The MM17 form should be annexed to the international application form.

**1902.06 Examination of Application by IB**

Upon certification, the USPTO forwards the international application to the IB. If the international application meets the applicable requirements (see TMEP §1902.05), the IB will immediately register the mark and publish the registration in the **WIPO Gazette of International Marks**. The IB will send the certificate to the holder and notify the Office of Origin and the Offices of the designated Contracting Parties to which extension of the registration is sought. Article 3(4); Common Reg. 14(1). If an international application is unacceptable, the IB will notify both the applicant and the USPTO of the “irregularity.” See TMEP §§1902.07 et seq.

**1902.07 Irregularities in International Application**

If an international application is unacceptable, the IB will notify both the applicant and the USPTO of the “irregularity.” Some types of irregularities must be remedied by the USPTO, some must be remedied by the applicant,
and some may be remedied by either the applicant or the USPTO. See 37 C.F.R. §7.14 and Common Reg. 11.

The MPU paralegals review all incoming notices of irregularities. If the irregularity is one that must be remedied by the USPTO (see TMEP §1902.07(a)), the MPU paralegal will respond to the notice and send the applicant a copy of the response.

If the irregularity is not one that must be remedied by the USPTO, the USPTO will note receipt of the notice of irregularity in its automated records, but will not take any other action. The USPTO will not respond to the notice on behalf of the applicant. The USPTO will not send a copy of the notice to the applicant because the IB has already notified the applicant of the irregularity.

Applicants must file responses to irregularities in classification and identification of goods/services through the USPTO (see TMEP §§1902.07(c) et seq.). With the exception of fees for correcting irregularities (see TMEP §1902.07(b)(i)), responses to all other types of irregularities may be filed directly at the IB or through the USPTO.

To be considered timely, responses to IB notices of irregularities must be received by the IB before the end of the response period set forth in the IB’s notice. Receipt of the response in the USPTO does not satisfy this requirement.

For responses to IB notices of irregularities that may be submitted through the USPTO, applicants may file the response either through TEAS or on paper. When correcting irregularities through the USPTO, the applicant should submit the response as soon as possible, and at least one month before the end of the response deadline set forth in the IB’s notice. The USPTO will not process any response submitted after the IB response deadline. 37 C.F.R. §7.14(e). See TMEP §1902.07(f) regarding responses to notices of irregularity submitted through the USPTO.

1902.07(a) Irregularities that Must Be Remedied by the USPTO

The following irregularities must be remedied by the USPTO within three months of the date of notification of the irregularity:

- Application is not presented on the official form or is not typed (Common Reg. 11(4)(a)(i); Guide to International Registration Para. B.II.25.03(a) (2004));
- Omission of reproduction of mark;
- Omission of list of goods/services;
- Omission of designation of Contracting Party or Parties;
MADRID PROTOCOL

- Insufficient identification of applicant;
- Irregularities relating to the entitlement of the applicant to file an international application;
- Application not signed by USPTO (Signature may be replaced with seal);
- Certification by USPTO is defective;
- Omission of date and number of basic application or registration.

Common Regs. 11(4) and 15(1).

If the USPTO does not cure the irregularity within three months, the international application is abandoned. Common Regs. 11(4)(b) and 11(5).

When responding to a notice of an irregularity that must be remedied by the USPTO, the MPU paralegal will send the applicant a copy of the response.

1902.07(b) Irregularities that Must Be Remedied by the Applicant – Applicant Must Respond Directly to the IB

1902.07(b)(i) Fee Irregularities

Where international fees for the international application are insufficient, the IB will notify both the applicant and the USPTO of the deficiency. The USPTO will not respond to the notice on behalf of applicant even if the international application fees were paid through TEAS.

Fees for correcting irregularities in an international application must be paid directly to the IB in Swiss currency, even if the applicant is filing a response to correct other irregularities through the USPTO. 37 C.F.R. §7.14(c). If any fees for correcting irregularities are submitted to the USPTO, the USPTO will return the fees to the applicant. The USPTO will not forward the fees to the IB. If the fees are not received by the IB on or before the deadline set forth in the IB’s notice of irregularity, the international application may be abandoned. See TMEP §1903.02 for information about the payment of fees to the IB.

1902.07(c) Irregularities that Must Be Remedied by the Applicant – Applicant Must Respond Through the USPTO

1902.07(c)(i) Classification of Goods and Services

If the IB finds an irregularity in classification, it will make a proposal and send it to both the applicant and the USPTO. The notice will state whether any additional fees are due. Common Reg. 12(1). The USPTO will not respond
to the notice on behalf of applicant or advise the applicant as to how to reclassify the goods/services.

The applicant cannot send its response directly to the IB. The applicant must submit the response through the USPTO. The IB must receive the response within 3 months of the date of the IB notification. 37 C.F.R. §7.14(b); Common Reg. 12(2). See TMEP §1902.07(f) regarding responses to notices of irregularity submitted through the USPTO.

The USPTO will not review the applicant’s response, but will forward it to the IB and notify the applicant accordingly.

If additional fees are due as a result of reclassification of goods/services, the applicant must pay the fees directly to the IB in Swiss currency. See TMEP §1903.02 for further information about the payment of fees to the IB.

Under Article 3(2), the IB controls classification and has the final say on classification of goods/services. Therefore, the IB may modify, withdraw or maintain its proposal after reviewing the applicant’s response. Common Reg. 12.

See also TMEP §1401.03(d).

1902.07(c)(ii) Identification of Goods and Services

If the IB determines that the identification of goods/services is too vague or is incomprehensible or linguistically incorrect, it will notify both the applicant and the USPTO. Common Reg. 13. The IB may include a suggested amendment in the notification. The USPTO will not respond to the notice on behalf of applicant or advise the applicant as to how to identify the goods/services.

The applicant cannot send a response directly to the IB. Any response regarding the identification of goods/services must be sent through the USPTO. The IB must receive the response within 3 months of the date of the IB notification. 37 C.F.R. §§7.14(a) and 7.14(b); Common Reg. 13(2). See TMEP §1902.07(f) regarding responses to notices of irregularity submitted through the USPTO.

An MPU paralegal will review the applicant’s response to ensure that the goods/services identified in the response are within the scope of the identification in the basic application or registration at the time the response is filed. If an amendment to the goods/services in the basic application or registration has been entered into the trademark database since the date the international application was submitted to the USPTO, the goods/services in the response to the IB notice must be within the scope of the amended goods/services. If the goods/services in the response exceed the scope of the goods/services in the basic application or registration as amended, the MPU paralegal will notify the applicant that the goods/services cannot be
certified. If there is time remaining in the IB response period, the applicant may submit a corrected response. If the goods/services in the corrected response do not exceed the scope of the goods/services in the basic application or registration as amended, and the IB response period has not expired, the MPU will certify the goods/services and forward the response to the IB.

If no proposal acceptable to the IB for remedying the irregularity is made within 3 months, and all other requirements have been met, the IB will either (1) include the term in the international registration with an indication that the IB considers the term to be unacceptable, if the class of the vague term was specified in the application; or (2) if the class was not specified, delete the term and notify both the USPTO and the applicant accordingly. Common Reg. 13(2)(b).

1902.07(d) Other Irregularities that Must Be Remedied By Applicant – Applicant May Respond Directly to the IB or Through the USPTO

Other irregularities to be remedied by applicant include but are not limited to insufficient information about the applicant’s representative; missing transliteration; insufficient information about a priority claim; unclear reproduction of the mark; and color claim with no color reproduction. The applicant must remedy the irregularities within three months of the date of the notification. Common Reg. 11(2).

An applicant may either file the response to these irregularities directly with the IB or through the USPTO either electronically or on paper. To be considered timely, responses to IB notices of irregularities must be received by the IB before the end of the response period set forth in the IB’s notice. Receipt in the USPTO does not fulfill this requirement.

If the response is filed through the USPTO, the USPTO will not review the response to the irregularity but will forward the response to the IB, and notify the applicant accordingly. See TMEP §1902.07(f) for information about responding to a notice of irregularity through the USPTO.

1902.07(e) Filing Response Directly With the IB

Information about filing responses directly with the IB is available on the WIPO website, currently at http://www.wipo.int/madrid/en/. An applicant may contact the IB by mail to 34 chemin des Colombettes, P.O. Box 18, 1211 Geneva 20, Switzerland; by telephone at 41 22 338 9111; by fax to 41 22 740 1429; or by e-mail to intreg.mail@wipo.int.
1902.07(f) Responding to Notice of Irregularity Through the USPTO

Under Trademark Rule 7.14(e), 37 C.F.R. §7.14(e), an applicant may file a response to an IB notice of irregularity through the USPTO for forwarding to the IB before the IB’s response deadline. The response may be filed electronically or on paper. However, receipt in the USPTO does not fulfill the requirement that the response be received by the IB before the IB response deadline. Therefore, applicants should submit responses to the USPTO as soon as possible and at least one month before the end of the IB response period.

The IB does not have a form for responses to irregularity notices. Applicants are strongly encouraged to use the TEAS form for responses to notices of irregularity. Applicants submitting paper responses to the USPTO for forwarding to the IB should include with the response: (1) the USPTO control number assigned to the international application; and (2) a copy of the IB’s irregularity notice. The applicant may include a self-addressed, stamped postcard with the response. Upon receipt, the USPTO will place a label indicating the receipt date on the papers and return the postcard to the applicant. However, to be considered timely, the response must be received by the IB before the end of the response period set forth in the IB’s notice, and receipt in the USPTO does not fulfill the IB deadline requirement.

Applicants submitting responses on paper should mail the document to the following address:

Commissioner for Trademarks
P.O. Box 16471
Arlington, VA 22215-1471
Attn: MPU

37 C.F.R. §§2.190(e) and 7.4(b). The response may be delivered by hand or courier to the Trademark Assistance Center, at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c). The certificate of mailing or transmission procedures of 37 C.F.R. §2.197 and Express Mail provisions of 37 C.F.R. §2.198 do not apply to responses to notices of irregularity. 37 C.F.R. §§2.197(a)(2)(ii), 7.4(b)(2) and 7.4(e).

Please note that fees for correcting irregularities in an international application must be paid directly to the IB in Swiss currency, even if the applicant is filing a response to correct irregularities through the USPTO. 37 C.F.R. §7.14(c).

See TMEP §1903.02 for further information about the payment of fees to the IB.

1900-30 April 2005
Responses to notices of irregularity cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(3).

1902.08  Subsequent Designation - Request for Extension of Protection Subsequent to International Registration

A subsequent designation is a request by the holder of an international registration for an extension of protection of the international registration to Contracting Parties made after the IB registers the mark. The requirements for a subsequent designation are set forth in Article 3ter(2) and Common Reg. 24. The holder may file the subsequent designation directly with the IB. There is a form for filing a subsequent designation on the IB website at http://www.wipo.int/madrid/en/.

A holder may file a subsequent designation through the USPTO if (1) the international registration is based on a basic application filed with the USPTO or a basic registration issued by the USPTO, and (2) the holder is a national of, is domiciled in, or has a real and effective business or commercial establishment in the United States. Section 64 of the Trademark Act, 15 U.S.C. §1141d; 37 C.F.R. §7.21(a).

1902.08(a)  USPTO Requirements

The minimum requirements for a date of receipt of a subsequent designation in the USPTO are set forth in 37 C.F.R. §7.21(b), and are reproduced below:

- The international registration number;
- The name and address of the holder of the international registration;
- A statement that the holder is entitled to file a subsequent designation through the USPTO, specifying that the holder: (i) is a national of the United States; (ii) has a domicile in the United States; or (iii) has a real and effective industrial or commercial establishment in the United States. If a holder's address is not in the United States, the holder must provide the address of its U.S. domicile or establishment;
- A list of goods/services that is identical to or narrower than the goods/services in the international registration;
- A list of the Contracting Parties designated for an extension of protection;
- The USPTO transmittal fee;
- The international fees required by the IB, if the subsequent designation is filed through TEAS; and
TRADEMARK MANUAL OF EXAMINING PROCEDURE

- An e-mail address for receipt of correspondence from the USPTO, if the subsequent designation is filed through TEAS.

See TMEP §1902.08(b) regarding the form for filing a subsequent designation through the USPTO, and TMEP §1902.08(c) regarding the international fees for a subsequent designation.

The USPTO does not certify subsequent designations. If a subsequent designation meets the requirements set forth in 37 C.F.R. §7.21(b), the USPTO will forward it to the IB. 37 C.F.R. §7.21(c). If the subsequent designation does not meet these requirements, the USPTO will not forward the subsequent designation, and will notify the holder of the reasons. The USPTO transmittal fee is nonrefundable. 37 C.F.R. §7.21(d).

If the subsequent designation meets the requirements of Common Reg. 24, the IB will record it and notify both the USPTO and the holder of the recordation. Common Reg. 24(7). The subsequent designation will bear the date of receipt in the USPTO, provided that the IB receives it within two months of that date. If the IB does not receive the subsequent designation within two months of the date of receipt in the USPTO, the subsequent designation will bear the date of receipt in the IB. Common Reg. 24(6)(b).

1902.08(b) Form for Filing Subsequent Designation Through the United States Patent and Trademark Office

Under Trademark Rule 7.21(b), 37 C.F.R. §7.21(b), the holder of an international registration submitting a subsequent designation through the USPTO may file either through TEAS or on the official paper form issued by the IB.

When filing through TEAS, the holder must enter the required information in the data fields of the free-text TEAS form. Holders filing subsequent designations on paper through the USPTO should use the official IB form MM4 posted on the IB website at http://www.wipo.int/madrid/en/. The IB will not accept paper applications that are not presented on the official IB form. The form cannot be handwritten. Article 3ter(2); Common Reg. 24(2)(b); Madrid Admin. Instr. §3(b). The holder should complete the MM4 form online, print the completed form, and submit it to the USPTO via mail, hand delivery or courier service.

The IB’s Guide to International Registrations, available on the IB’s website at: www.wipo.int/madrid/en, contains instructions for completing the subsequent designation form, at B.II.43.01-44.03.

Once the subsequent designation form is completed, it may be mailed to the USPTO at the following address:

Commissioner for Trademarks

1900-32 April 2005
37 C.F.R. §§2.190(e) and 7.4(b). Subsequent designations may also be delivered by hand or courier to the Trademark Assistance Center, at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c).

If a subsequent designation is mailed to the USPTO via the Express Mail Service of the USPS, the USPTO will deem that the subsequent designation was submitted on the day it was deposited as Express Mail, provided that the holder complies with the requirements for correspondence sent by Express Mail set forth in 37 C.F.R. §2.198. See TMEP §305.03 regarding the requirements for submission of documents by Express Mail. The certificate of mailing or transmission procedures of 37 C.F.R. §2.197 do not apply to subsequent designations. 37 C.F.R. §§2.197(a)(2)(ii) and 7.4(e).

With a paper-filed subsequent designation, a holder should include a self-addressed, stamped postcard. Upon receipt of the subsequent designation, the USPTO will place a label indicating the receipt date on the papers and return the postcard to the holder.

Subsequent designations cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(2).

1902.08(c) Fees for Subsequent Designation

USPTO Transmittal Fee. The subsequent designation must include the USPTO transmittal fee, or the USPTO will not forward it to the IB. 37 C.F.R. §7.21(a)(7).

International Fees. Trademark Rule 7.21(a)(8) requires that if the subsequent designation is filed through TEAS, all international fees for the subsequent designation must be paid at the time of submission. International fees for subsequent designations filed on paper must be paid directly to the IB in Swiss currency, either before or after submission of the subsequent designation. However, international fees paid after the IB receives the subsequent designation could result in a notice of irregularity issued by the IB. Holders may submit a bank check for international fees in Swiss francs made payable to the IB when submitting the subsequent designation on paper to the USPTO. The USPTO will forward the check with the subsequent designation to the IB.

See TMEP §1903.02 regarding payment of international fees.
1902.08(d)  IB Requirements for Subsequent Designation

The subsequent designation requirements are set forth in Article 3\textsuperscript{tor} and Common Reg. 24. If the subsequent designation meets the minimum requirements for a date of receipt set forth in 37 C.F.R. §7.21(b) (see TMEP §1902.08(a)), the USPTO will forward the subsequent designation to the IB. The USPTO will not examine it to determine whether it is complete. The IB will examine it for completeness.

If the subsequent designation meets the applicable requirements, the IB will record it in the International Register and notify the holder, the Offices of the designated Contracting Parties and the USPTO, if the subsequent designation was submitted through the USPTO. Common Reg. 24(8).

1902.08(e)  Irregularities in Subsequent Designation

If a subsequent designation is sent to the IB through the USPTO, the IB will notify both the holder and the USPTO of any irregularity. Common Reg. 24(5)(a). Corrections of any irregularity in a subsequent designation must be sent directly to the IB, even if the subsequent designation was sent through the USPTO. 37 C.F.R. §7.21(e). The USPTO will make note of the notice of irregularity in its automated records, but will not take any other action.

1902.09  Dependence & “Central Attack”: Restriction, Abandonment, Cancellation or Expiration of Basic Application or Registration During First 5 Years

For a period of 5 years from the date of the international registration, the registration is dependent on the basic application or basic registration. Article 6(3). Under §63 of the Trademark Act, 15 U.S.C. §1141c, and Article 6(4), the USPTO must notify the IB if the basic application or registration is restricted, abandoned, cancelled, or expired, with respect to some or all of the goods/services listed in the international registration:

(1) Within five years after the international registration date; or

(2) More than five years after the international registration date if the restriction, abandonment, or cancellation of the basic application or basic registration resulted from an action that began before the end of the five-year period.

The IB will cancel (or restrict) the international registration accordingly. Article 6(4); Common Reg. 22(2)(b). This is sometimes called “central attack.”

The USPTO must notify the IB if there is an appeal, opposition or cancellation proceeding (or a court proceeding, if the USPTO is aware of the proceeding) pending at the end of the five-year period. The USPTO must notify the IB of the final decision once the proceeding is concluded. Common Regs. 22(1)(b)
and (c). The IB will record this notice in the International Register and notify the holder and the designated Contracting Parties.

In view of the above notification requirements, applicants and registrants are encouraged to exercise diligence in monitoring the status of their basic application or basic registration (see TMEP §1705.05). Once the IB cancels or restricts an international registration, it cannot be reinstated. If a problem arises with the basic application or registration or a status inquiry reveals that the basic application or registration has become improperly abandoned or cancelled, the applicant or registrant should promptly take corrective action. See TMEP §1712 for information regarding reinstatement of abandoned applications and cancelled registrations; and TMEP §1714 regarding petitions to revive abandoned applications.

1902.10 Transformation When the USPTO is the Office of Origin

If the IB cancels an international registration as a result of the cancellation or restriction of the USPTO basic application and/or USPTO basic registration under Article 6(4) (see TMEP §1902.09), the holder may “transform” the international registration into national applications in the offices of the Contracting Parties that were designated for extension(s) of protection in the international registration. Transformation must be requested within three months from the date of cancellation of the international registration. Article 9quinquies. The filing date for the new national application(s) that results from the transformation of an extension of protection will be the international registration date (or the date of recordal of the subsequent designation requesting an extension of protection to that Contracting Party). The goods/services in the national application(s) must have been covered by the cancelled international registration.

Transformation of an extension of protection may take place only if the IB cancels or restricts the international registration at the request of the USPTO, due to cancellation of the USPTO basic application or USPTO basic registration. It is not available if the international registration is cancelled at the request of the holder, or expires for failure to renew. Transformation is not available at the Office of Origin.

The request for transformation must be filed directly with the designated Contracting Party, and will be examined as a regular application under the laws of that Contracting Party. The USPTO and the IB are not involved.

See TMEP §§1904.09 et seq. regarding transformation of a request for extension of protection to the United States into an application under §1 or §44 of the Trademark Act.
1902.11 Representative

An applicant for or holder of an international registration may appoint a representative to represent the applicant or holder before the IB by indicating the representative’s name in the appropriate box on the international application or subsequent designation form. Common Reg. 3(2)(a). The applicant/holder may also appoint a representative in a subsequent communication submitted to the IB (see TMEP §1906.01(d)). Common Reg. 3(2)(b). There is a form for appointing a representative on the IB website at http://www.wipo.int/madrid/en/.

See TMEP §§603.01(a) and 1904.02(f) regarding the correspondence address in a request for extension of protection to the United States.

1902.12 USPTO Must Notify IB of Division or Merger of Basic Application or Registration

Under Common Reg. 23, an Office of Origin must notify the IB if the basic application or registration is divided into several applications or registrations, or if several applications or registrations are merged into a single application or registration, within 5 years after the date of the international registration. See TMEP §§1110 et seq. regarding division of a United States application and TMEP §§1615 et seq. regarding division of a United States registration.

1903 Payment of Fees

1903.01 Payment of USPTO Fees

The fees required by the USPTO for processing correspondence relating to international applications and registrations under the Madrid Protocol are set forth in 37 C.F.R. §7.6. The USPTO charges a fee for processing the following Madrid related documents:

- International applications under 37 C.F.R. §7.11;
- Subsequent designations under 37 C.F.R. §7.21;
- Requests to record assignments, restrictions or release of restrictions of an international registration under 37 C.F.R. §§7.23 and 7.24;
- Notices of replacement under 37 C.F.R. §7.28; and
- Affidavits under Section 71 of the Act (see 37 C.F.R. §7.36).

These fees must be paid in U.S. dollars at the time of submission regardless of whether the document is submitted electronically or on paper.
1903.02 Payment of International Fees

In addition to the fees required by the USPTO, there are international fees for processing international applications and registrations required by the IB. Fees for international applications, subsequent designations, and requests to record changes of ownership of international registrations may be paid either directly to the IB or through the USPTO if the document is filed through TEAS. 37 C.F.R. §7.7(a). Applicants/holders filing on paper must pay all international fees directly to the IB in Swiss currency. 37 C.F.R. §7.7(c); see Common Regs. 34 to 38 regarding payment of fees. There is a fee calculator and a schedule of fees on the IB website at http://www.wipo.int/madrid/en/.

The IB will accept the following forms of payment:

- Debit to a current account established with the IB;
- Payment into the Swiss postal check account or to any of the specified bank accounts of the IB;
- Banker’s check in Swiss currency; and
- Payment in cash at the IB.

Admin. Instr. §19.

The conditions for opening, using, and closing a current account with the IB are posted on the IB website at http://www.wipo.int/madrid/en.

When submitting international applications, subsequent designations and requests to record changes of ownership of international registrations on paper to the IB through the USPTO, the applicant/holder may include a banker’s check payable to the IB in Swiss francs for forwarding to the IB with the submission.

Questions concerning payment of international fees should be directed to the IB by mail to the World Intellectual Property Organization, 34 chemin des Colombettes, P.O. Box 18, 1211 Geneva 20, Switzerland; by telephone at 41 22 338 9111; by fax to 41 22 740 1429; or by e-mail to intreq.mail@wipo.int. The USPTO cannot assist applicants/holders in calculating the appropriate international fees or in selecting a method of payment of fees to the IB.

1904 Request for Extension of Protection of International Registration to the United States

1904.01 Filing Request for Extension of Protection to United States

The holder of an international registration may file a request for extension of protection of that registration to the United States. Section 66(a) of the
Trademark Act, 15 U.S.C. §1141f. The request for extension of protection to the United States may be included in the international application, or in a subsequent designation made after the IB registers the mark. The IB will transmit the request for extension of protection to the United States to the USPTO electronically. The USPTO refers to a request for extension of protection to the United States as a “§66(a) application.” 37 C.F.R. §7.25(b).

1904.01(a) Section 66(a) Basis

Section 66(a) of the Trademark Act provides a basis for filing in the United States. See 37 C.F.R. §2.34(a)(5). A §66(a) applicant cannot change the basis or claim more than one basis. 37 C.F.R. §§2.34(b)(3) and 2.35(a).

1904.01(b) Filing Date

If a request for extension of protection of an international registration to the United States is made in an international application, the filing date of the §66(a) application is the international registration date. If a request for extension of protection to the United States is made in a subsequent designation, the filing date of the §66(a) application is the date that the subsequent designation was recorded by the IB. 15 U.S.C. §1141f(b); 37 C.F.R. §7.26.

1904.01(c) Declaration of Intent to Use Required

Section 66(a) of the Trademark Act requires that a request for extension of protection to the United States include a declaration that the applicant has a bona fide intention to use the mark in commerce that can be controlled by the United States Congress. 15 U.S.C. §1141f(a). The declaration must include a statement that the person making the declaration believes the applicant to be entitled to use the mark in commerce; and that to the best of his/her knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such near resemblance thereto as to be likely, when used on or in connection with the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive. Section 60(5) of the Trademark Act, 15 U.S.C. §1141(5).

The declaration must be signed by (1) a person with legal authority to bind the applicant; (2) a person with firsthand knowledge of the facts and actual or implied authority to act on behalf of the applicant; or (3) an attorney authorized to practice before the USPTO under 37 C.F.R. §10.14 who has an actual written or verbal power of attorney or an implied power of attorney from the applicant. 37 C.F.R. §2.33(a).

The USPTO has provided the IB with wording for the declaration of the applicant’s bona fide intention to use the mark in commerce, which is part of
MADRID PROTOCOL

the official IB form for international applications and subsequent designations in which the United States is designated for an extension of protection (IB Form MM18). Instructions as to who is a proper party to sign the declaration pursuant to 37 C.F.R. §2.33(a) have also been provided to the IB.

The IB will check to ensure that the MM18 form is annexed to the international application or subsequent designation in which there is a request for extension of protection to the United States, that the wording of the declaration has not been altered, and that the document has been signed before forwarding the request for extension of protection to the USPTO. The IB will not send the verified statement to the USPTO with the request for extension of protection.

The verified statement remains part of the international registration on file at the IB. 37 C.F.R. §2.33(e). The examining attorney will not review the international registration to determine whether there is a proper declaration of intent to use, or issue any inquiry regarding the verification of the application. See TMEP §804.06 for further information about declarations in §66(a) applications.

1904.01(d) Use Not Required

Use in commerce prior to registration is not required. Section 68(a)(3) of the Trademark Act, 15 U.S.C. §1141h(a)(3). However, after registration, periodic affidavits of use or excusable nonuse are required to maintain a registered extension of protection. Section 71 of the Trademark Act, 15 U.S.C. §1141k. See TMEP §1613 for information about these affidavits.

1904.01(e) Priority

A holder may claim a right of priority within the meaning of Article 4 of the Paris Convention if:

(1) The request for extension of protection contains a claim of priority;

(2) The request for extension of protection specifies the filing date, serial number and the country of the application that forms the basis for the claim of priority; and

(3) The date of international registration or the date of the recordal of the subsequent designation requesting an extension of protection to the United States is not later than 6 months after the date of the first regular national filing (within the meaning of Article 4(A)(3) of the Paris Convention) or a subsequent application (within the meaning of Article 4(C)(4) of the Paris Convention).

To be eligible for a claim of priority in a 66(a) application, a holder must file a request for extension of protection to the United States within 6 months of the date of the filing that forms the basis of the priority claim. If the United States is designated for an extension of protection in an international application, the international registration date cannot be later than 6 months after the date of the filing that formed the basis of the priority claim. If a request for extension of protection to the United States is made in a subsequent designation, the date of recordal of the subsequent designation cannot be later than 6 months after the date of the filing that formed the basis of the priority claim.

1904.01(f) Filing Fee

The filing fee for a §66(a) application will be sent to the USPTO by the IB. The examining attorney should not require additional fees during examination. See Article 8 and Common Regs. 34 through 38 regarding international fees.

1904.01(g) Constructive Use

Under §66(b) of the Trademark Act, unless extension of protection is refused, the filing of the request for extension of protection constitutes constructive use of the mark, conferring the same rights as those specified in §7(c) of the Trademark Act, 15 U.S.C. §1057(c), as of the earliest of the following:

1. The international registration date, if the request for extension of protection was filed in the international application;

2. The date of recordal of the subsequent designation requesting extension of protection, if the request for extension of protection to the United States was made after the international registration date; or

3. The date of priority claimed pursuant to §67 of the Trademark Act.

1904.01(h) Cannot be Based on USPTO Basic Application or Registration

An international registration in which the United States is the Office of Origin (i.e., an international registration based on a basic application pending in the USPTO or a basic registration issued by the USPTO) cannot be used to obtain an extension of protection to the United States. Section 65(b) of the Trademark Act, 15 U.S.C. §1141e(b); Article 3bis. The IB will not send a request for extension of protection to the United States if the international registration is based on a USPTO basic application or registration.
1904.02 Examination of Request for Extension of Protection to the United States

1904.02(a) Examined as Regular Application

Under Section 68(a) of the Trademark Act, 15 U.S.C. §1141h, a request for extension of protection will be examined under the same standards as any other application for registration on the Principal Register. It is unnecessary for the examining attorney to review the international registration on file at the IB, since the IB will forward all the necessary information with the request for extension of protection.

Except for 37 C.F.R. §§2.130-2.131, 2.160-2.166, 2.168, 2.173, 2.175, 2.181-2.186 and 2.197, all rules in 37 C.F.R. Part 2 apply to a request for extension of protection of an international registration to the United States, including sections related to proceedings before the Trademark Trial and Appeal Board, unless stated otherwise. All rules in 37 C.F.R. Part 10 also apply to requests for extension of protection. 37 C.F.R. §7.25(a).

1904.02(b) Examination of Identification and Classification of Goods/Services in §66(a) Applications

The examining attorney will examine the identification of goods/services in a §66(a) application according to the same standards of specificity used in examining applications under §1 and §44 of the Trademark Act, 15 U.S.C. §§1051 and 1126. Specifically, the examining attorney must follow the procedures set forth in the TMEP and identify the goods/services in accordance with the USPTO’s Manual of Acceptable Identification of Goods and Services (“USPTO ID Manual”) whenever possible.

However, the international classification of goods/services in a §66(a) application cannot be changed from the classification given to the goods/services by the IB. Under Article 3(2), the IB controls classification. The §66(a) application (and any resulting registration) remains part of the international registration, and a change of classification in the United States would have no effect on the international registration. TMEP §1401.03(d).

If the IB’s classification of goods/services in the §66(a) application is different from the classification set forth in the USPTO ID Manual, the examining attorney will not request an amendment of the classification. The goods/services cannot be moved to another class identified in the application.

Accordingly, if the mark in a §66(a) application appears to be a certification or collective membership mark, the USPTO will not reclassify it into U.S. Class A, B or 200. However, the applicant must comply with all other U.S. requirements for certification and collective membership marks, regardless of the classification chosen by the IB. See TMEP §§1304 et seq. and 1306 et seq.
1904.02(c) Mark Must Be Registrable on Principal Register

There is no provision in the Trademark Act for registration of a mark in a request for an extension of protection on the Supplemental Register. If the proposed mark is not registrable on the Principal Register, the extension of protection must be refused. Section 68(a)(4) of the Trademark Act, 15 U.S.C. §1141h(a)(4); 37 C.F.R. §§2.47(c) and 2.75(c).

1904.02(d) Refusal Must Be Made Within 18 Months

Under §68(c) of the Trademark Act and Article 5 of the Protocol, the USPTO must notify the IB of any refusal entered in a §66(a) application within 18 months of the date the IB transmits the request for extension of protection to the USPTO. See TMEP §1904.03(a).

1904.02(e) Issuing Office Actions

The USPTO will send the first Office action in a §66(a) application to the IB. The first Office action is known as a provisional refusal and must be reviewed by the IB. If the provisional refusal meets the applicable requirements, (see TMEP §1904.03 et seq.), the IB will send it to the holder (i.e., the §66(a) applicant).

An examiner’s amendment or a combined examiner’s amendment/priority action (see TMEP §§707 et seq. and 708.05) may not be issued as a first Office action because the IB will not accept such amendments. Examiner’s amendments and combined examiner’s amendments/priority actions may be issued as second and subsequent actions.

The USPTO will send second and subsequent Office actions directly to the applicant, at the correspondence address set forth in the request for extension of protection to the United States, or to the correspondence address provided in a subsequent communication filed in the USPTO. See TMEP §1904.02(f) regarding applicant’s correspondence address.

1904.02(f) Correspondence Address

The USPTO will send second and subsequent Office actions to the applicant’s correspondence address of record. The USPTO will accept a notice of change of the correspondence address in a §66(a) application or a registered extension of protection to the United States, and will send correspondence to the new address. See TMEP §§603 et seq. regarding the procedures for establishing and changing the correspondence address in the USPTO.

An applicant should not use as its correspondence address the address of an attorney who is not qualified to practice before the USPTO in trademark
cases under 37 C.F.R. §10.14(c). See TMEP §§602.03, 603.05 and 1904.03(c).

A change of the correspondence address in the USPTO records will not affect the address of the holder’s representative designated in the international registration, to which the IB sends correspondence. A request to record a change of the name or address of the representative designated in the international registration must be filed with the IB; it cannot be filed through the USPTO. See TMEP §1906.01(c). There are forms for changing the name or address of the representative on the IB website at http://www.wipo.int/madrid/en/. See Common Reg. 36(i).

1904.02(g) Mark Cannot Be Amended

The Madrid Protocol and the Common Regulations do not permit amendment of a mark in an international registration. If the holder of the international registration wants to change the mark in any way, even slightly, the holder must file a new international application. The IB’s Guide to International Registration, Para. B.II.69.02 (2004), provides as follows:

[T]here is no provision for a mark that is recorded in the International Register to be amended in any way, either on renewal or at any other time. If the holder wishes to protect the mark in a form which differs, even slightly, from the mark as recorded, he must file a new international application. This is true even if the mark has been allowed to be changed in the basic application, the registration resulting from the basic application or the basic registration, as the case may be....

Accordingly, because an application under §66(a) is a request to extend protection of the mark in an international registration to the United States, the Trademark Rules of Practice make no provision for amendment of the mark in a §66(a) application, and the USPTO will not permit such amendments. See 37 C.F.R. §2.72; TMEP §807.13(b).

1904.02(h) Jurisdiction

The provisions with respect to requesting jurisdiction over published §66(a) applications are similar to those for applications under §§1(a) and 44 of the Trademark Act. 37 C.F.R. §2.84. However, when deciding whether to grant requests for jurisdiction of §66(a) applications, the Director must consider the time limits for notifying the IB of a refusal of a §66(a) application, set forth in Article 5(2) of the Protocol and §68(c) of the Trademark Act.
1904.03 Notice of Refusal

1904.03(a) Notice Must be Sent Within 18 Months

Within 18 months of the date the IB forwards a request for extension of protection, the USPTO must transmit:

1. A notification of refusal based on examination;
2. A notification of refusal based on the filing of an opposition; or
3. A notification of the possibility that an opposition may be filed after expiration of the 18-month period. If the USPTO notifies the IB of the possibility of opposition, it must send the notification of refusal within 7 months after the beginning of the opposition period or within one month after the end of opposition period, whichever is earlier.

Section 68(c) of the Trademark Act, 15 U.S.C. §1141h(c); Article 5.

If the USPTO does not send a notification of refusal of the request for extension of protection to the IB within 18 months, the request for extension of protection cannot be refused. Section 68(c)(4) of the Trademark Act; Article 5(5); Common Reg. 17(2)(iv). If the USPTO sends a notification of refusal, no grounds of refusal other than those set forth in the notice can be raised more than 18 months after the date the IB forwards the request for extension of protection to the USPTO. Section 68(c)(3) of the Trademark Act.

1904.03(b) Requirements for Notice of Refusal

A final decision is not necessary; a provisional refusal is sufficient to meet the 18-month requirement. Under Common Reg. 17, a notice of provisional refusal must be dated and signed by the USPTO and must contain:

- The number of the international registration, preferably accompanied by an indication of the mark;
- All grounds of refusal;
- If there is a conflicting mark, the filing date, number, priority date (if any), the registration date and number (if available), the name and address of the owner, reproduction of the conflicting mark, and list of goods/services;
- A statement that the provisional refusal affects all the goods and/or services, or a list of the goods/services affected;
- The procedures and time limit for contesting the refusal, i.e., period for response or appeal of the refusal, and the authority with which an appeal can be filed;
• If the refusal is based on an opposition, the name and address of the opposer.

The IB will record the provisional refusal in the International Register and transmit it to the holder of the registration. Article 5(3); Common Reg. 17(4).

1904.03(c) §66(a) Applicant Must Respond to Notification of Refusal

A holder of an international registration who applies for an extension of protection to the United States will receive any notification of refusal through the IB. The holder must respond directly to the USPTO. The holder may be represented by an attorney who meets the requirements of 37 C.F.R. §10.14 (see TMEP §§601 and 602). Standard examination procedures are used to examine §66(a) applications.

A foreign attorney who does not meet the requirements of 37 C.F.R. §10.14 cannot represent the applicant or sign a response to an Office action on behalf of the applicant. See TMEP §§712.01 and 712.03.

1904.03(d) Refusal Pertaining to Less Than All the Goods/Services

If a notification of refusal in a §66(a) application does not pertain to all the goods/services, the mark is protected for the remaining goods/services, even if the holder does not respond to the notification of refusal. Sections 68(c) and 69(a) of the Trademark Act, 15 U.S.C. §§1141h(c) and 1141i(a), provide that an application under §66(a) of the Trademark Act is automatically protected with respect to any goods or services for which the USPTO has not timely notified the IB of a refusal.

Accordingly, 37 C.F.R. §2.65(a) provides that if a refusal or requirement is expressly limited to only certain goods/services and the applicant fails to file a response (or a complete response) to the refusal or requirement, the application shall be abandoned only as to those particular goods/services. See TMEP §718.02(a) for further information about partial abandonment.

1904.03(e) Confirmation or Withdrawal of Provisional Refusal

If the USPTO has sent a notice of provisional refusal, once procedures regarding the refusal are complete, the USPTO must notify the IB that:

(1) protection is refused for all goods/services;

(2) the mark is protected for all goods/services; or

(3) the mark is protected for some specified goods/services.

Common Reg. 17(5). The IB will record this notice and send it to the holder.
1904.04 Opposition

Section 68(a)(2) of the Trademark Act, 15 U.S.C. §1141h(a)(2), provides that a request for extension of protection is subject to opposition under §13 of the Trademark Act. As noted above, the USPTO must notify the IB within 18 months of the date the IB sends the request for extension of protection to the USPTO of: (1) a notification of refusal based on the filing of an opposition; or (2) a notification of the possibility that an opposition may be filed after expiration of the 18-month period.

The notice must state the dates on which the opposition period begins and ends, if known. If the dates are unknown, the USPTO must communicate them to the IB “at the latest at the same time as any notification of a provisional refusal based on an opposition.” Common Reg. 16(1)(b).

Any notification of refusal on the basis of opposition must be received by the IB within 7 months after the beginning of the opposition period or within one month after the end of the opposition period, whichever is earlier. 15 U.S.C. §11411h(c)(2); Article 5(2)(c)(ii).

An opposition to a §66(a) application must be filed through the Electronic System for Trademark Trials and Appeals (“ESTTA”). 37 C.F.R. §2.101(b)(2). In re Börlind Gesellschaft für kosmetische Erzeugnisse mbH, 73 USPQ2d 2019 (TTAB 2005). The notice of opposition must include all fees for each party opposer to oppose the registration in all classes specified in the opposition. 37 C.F.R. §2.101(d)(2). Once filed, an opposition to a §66(a) application may not be amended to change or add to the grounds for opposition or to add to the goods or services opposed. 37 C.F.R. §2.107(b).

Request for Extension of Time to Oppose. A request for extension of time to oppose a §66(a) application must be filed through ESTTA. 37 C.F.R. §2.102(a)(2).

No more than three requests to extend the time for filing an opposition may be filed. The time for filing an opposition may not be extended beyond 180 days from the date of publication. 37 C.F.R. §2.102(c).

See TMEP §§1503 et seq. for further information about oppositions.

1904.05 Certificate of Extension of Protection

If the mark in a §66(a) application is published for opposition and is not opposed, or if an application survives all oppositions filed, the USPTO will issue a certificate of extension of protection and publish notice of such certificate in the Official Gazette. Section 69(a) of the Trademark Act, 15 U.S.C. §1141i(a). From the date of issuance of the certificate, the extension of protection has the same effect and validity as a registration on the Principal Register, and the holder of the international registration has the
MADRID PROTOCOL

same rights and remedies as the owner of a registration on the Principal Register. Section 69(b) of the Trademark Act. The certificate of registration will look the same as the certificate issued for registrations resulting from applications under §§1 and 44 of the Trademark Act.

Upon registration, the USPTO will refer to an extension of protection to the United States as a “registration,” “registered extension of protection,” or a “§66(a) registration.” 37 C.F.R. §7.25(c).

A registered extension of protection always remains part of and dependent upon the international registration. In this respect, a registered extension of protection differs from a §44 registration, which is independent from the underlying foreign registration, pursuant to 15 U.S.C. §1126(f).

See TMEP §§1613 and 1904.10 regarding the requirement for an affidavit of use or excusable nonuse under §71 of the Trademark Act, 15 U.S.C. §1141k, TMEP §1905 regarding renewal and expiration of international registrations in general, and TMEP §1614 for information about renewal of registered extensions of protection to the United States.

1904.06 Assignment of Extension of Protection to the United States

Under §72 of the Trademark Act, 15 U.S.C. §1141/, an extension of protection to the United States may be assigned, together with the goodwill associated with the mark, only to a person who is a national of, is domiciled in, or has a bona fide and effective industrial or commercial establishment in a country that is party to the Madrid Protocol (or in a country that is a member of an intergovernmental organization that is a party to the Madrid Protocol).

Because an extension of protection remains part of the international registration, assignments of extensions of protection to the United States must first be recorded at the IB. A holder or assignee cannot file an assignment (or other document transferring title) of an extension of protection to the United States directly with the Assignment Services Division of the USPTO. The USPTO will record only those assignments (or other documents transferring title) that have been recorded in the International Register. The IB will notify the USPTO of any changes in ownership recorded in the International Register, and the USPTO will automatically update the trademark database and the assignment database to reflect the change(s). See TMEP §501.07.

See TMEP §§1906.01 and 1906.01(a) regarding requests to record a change of ownership in the International Register.

Section 10 of the Trademark Act and 37 C.F.R. Part 3 do not apply to assignments of international registrations or extensions of protection to the United States. 37 C.F.R. §7.22.
1904.07 Invalidation of Protection in United States

An extension of protection to the United States may be invalidated in an administrative or judicial proceeding, governed by U.S. law, such as a cancellation proceeding before the Trademark Trial and Appeal Board or a federal court proceeding. The USPTO must notify the IB if an extension of protection to the United States is invalidated. Article 5(6). The requirements for a notice of invalidation are set forth in Common Reg. 19.

1904.08 Cancellation of International Registration By IB

If the IB notifies the USPTO that an international registration has been cancelled with respect to some or all of the goods/services, the USPTO will cancel the extension of protection of that international registration to the United States with respect to such goods/services as of the date that the IB cancelled the international registration. 15 U.S.C. §1141j(a); 37 C.F.R. §7.30.

See TMEP §1905 regarding renewal and expiration of international registrations in general, and TMEP §1614 for information about renewal of registered extensions of protection to the United States.

1904.09 Transformation to Application Under §1 or §44

An international registration is dependent on the basic application and/or basic registration for five years after the date of the international registration. Article 6(3). If the basic application or registration is restricted, abandoned, cancelled, or expired with respect to some or all of the goods or services listed in the international registration, the Office of Origin will notify the IB, and the IB will cancel (or restrict) the international registration and notify the USPTO. Article 6(4). See TMEP §1902.09. The USPTO will cancel, in whole or in part, the corresponding registered extension of protection (or request for extension of protection) of the international registration to the United States.

In this situation, the holder of the international registration may “transform” the cancelled registered extension of protection (or request for extension of protection) into an application under §1 or §44 of the Trademark Act for registration of the same mark for any or all of the cancelled goods/services that were covered by the extension of protection. 15 U.S.C. §1141j; Article 9quinquies.

1904.09(a) Requirements for Transformation

A request for transformation must be filed within three months after the date on which the international registration was cancelled, in whole or in part. Article 9quinquies(i); Section 70(c) of the Trademark Act. The request must include:
MADRID PROTOCOL

(1) The serial number or registration number of the extension of protection to the United States;
(2) The name and address of the holder of the international registration;
(3) The domestic application filing fee required by 37 C.F.R. §2.6(a)(1) for at least one class of goods or services; and
(4) An e-mail address for receipt of correspondence from the USPTO.

37 C.F.R. §7.31(a).

The holder must file the request for transformation directly with the USPTO, which will be examined as a domestic application.

Under §70(c) of the Trademark Act and Article 9quinquies, transformation may take place only if the international registration is cancelled or restricted at the request of the Office of Origin under Article 6(4), due to the cancellation of the basic application and/or registration. It is not available if the international registration expires for failure to renew, is cancelled or restricted at the request of the holder, or is cancelled or restricted for any other reason.

The request for transformation should be mailed to the following address:

Commissioner for Trademarks
P.O. Box 16471
Arlington, VA  22215-1471
Attn: MPU

37 C.F.R. §§2.190(e) and 7.4(b). The request may also be delivered by hand or courier to the Trademark Assistance Center, at James Madison Building – East Wing, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c). The certificate of mailing or transmission procedures of 37 C.F.R. §2.197 and Express Mail provisions of 37 C.F.R. §2.198 do not apply to requests for transformation. 37 C.F.R. §§2.197(a)(2)(ii), 7.4(b)(2) and 7.4(e).

Requests for transformation cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(6).

1904.09(b)  Examination of Transformed Application

A “transformed” application under §1 or §44 of the Trademark Act resulting from the transformation of a cancelled extension of protection must comply with all the requirements of the Trademark Act and Trademark Rules of Practice. 37 C.F.R. §7.31(c). The USPTO will assign a new serial number, and will link the prosecution history of the cancelled extension of protection to the new “transformed” application.
The USPTO will treat the “transformed” application as if it had been filed on (1) the international registration date, if the request for extension of protection to the United States was made in the international application, or (2) the date of recordal of the subsequent designation with the IB, if the request for extension of protection to the United States was made in a subsequent designation. If the extension of protection was entitled to priority under §67 of the Trademark Act, the new application is entitled to the same priority.

If an examining attorney has already performed a search for conflicting marks, he or she does not have to conduct a new search, since the effective filing date will not change.

The examining attorney should inquire as to whether the holder seeks registration for all of the goods/services that were covered by the cancelled extension of protection.

Even if the mark in the extension of protection was already published or registered, republication will be required.

Generally, in examining a “transformed” application where the extension of protection was published or registered, the Office will only issue requirements or refusals related to the new §1 or §44 basis. However, in some cases, where a significant length of time has elapsed since the initial examination of the request for extension of protection, refusal of registration may be appropriate due to changed circumstances. For example, the mark may have become descriptive or generic as applied to the goods or services.

1904.10 Affidavits of Use or Excusable Nonuse Required

Under §71 of the Trademark Act, 15 U.S.C. §1141k, a registered extension of protection to the United States will be cancelled unless the holder of the international registration periodically files affidavits of use in commerce or excusable nonuse (“§71 affidavit”). See TMEP §1613 for further information.

Since the §71 affidavit cannot be filed until five years after the USPTO registers an extension of protection, the USPTO will not accept these affidavits until after November 2, 2008.

1904.11 Incontestability

Under §73 of the Trademark Act, 15 U.S.C. §1141m, if a holder files an affidavit that meets the requirements of §15 of the Trademark Act, a registered extension of protection to the United States may become “incontestable”. See TMEP §§1605 et seq. regarding the requirements for an affidavit of incontestability under §15 of the Trademark Act.

The USPTO will not accept these affidavits until after November 2, 2008.
1904.12 Replacement

If a U.S. national registration and a subsequently issued certificate of extension of protection of an international registration to the United States are (1) owned by the same person, (2) identify the same mark, and (3) list the same goods or services, the extension of protection shall have the same rights as those accrued to the U.S. national registration at the time the certificate of extension of protection issues. Section 74 of the Trademark Act, 15 U.S.C. §1141n; 37 C.F.R. §7.28(a); Article 4bis. See TMEP §1616 for further information.

1904.13 Amendment of Registered Extension of Protection to the United States

All requests to record changes to an international registration and extensions of associated extensions of protection must be filed at the IB. Accordingly, the holder of a registered extension of protection of an international registration to the United States cannot file an amendment under §7 of the Trademark Act. TMEP §§1609.01(a) and 1609.02. The USPTO will not accept an amendment of a registered extension of protection that has not been recorded in the International Register. See TMEP §§1906.01 et seq. regarding requests to record changes at the IB.

1905 Renewal of International Registrations

The term of an international registration is ten years, and it may be renewed for ten years upon payment of the renewal fee. Articles 6(1) and 7(1). Renewal of international registrations must be made at the IB, in accordance with Article 7 and Common Regs. 29 - 31. There is a renewal form on the IB website at http://www.wipo.int/madrid/en/.

The USPTO will not process a request to renew an international registration nor forward it to the IB. 37 C.F.R. §7.41.

See TMEP §1614 regarding renewal of a registered extension of protection to the United States.

1906 Communications With International Bureau Regarding International Registrations

Information about communicating directly with the IB is available on the WIPO website at http://www.wipo.int/madrid/en/. The IB can be contacted by mail to 34 chemin des Colombettes, P.O. Box 18, 1211 Geneva 20, Switzerland; by telephone at 41 22 338 9111; by fax to 41 22 740 1429; or by e-mail to intreg.mail@wipo.int.
1906.01 Recording Changes in International Register

The IB will record changes and other matters concerning international registration in the International Register. Such requests are governed by Articles 9 and 9bis and Common Reg. 25. Some of the changes that can be recorded in the International Register include:

- Change in ownership of the registration;
- Change of holder’s name and address;
- Change in name or address of holder’s representative;
- Limitation, renunciation, or cancellation of international registration.

Most requests to record changes must be filed with the IB on the IB’s forms, available on the IB website at http://www.wipo.int/madrid/en/. There are only two limited situations in which a request to record a change may be filed with the IB through the USPTO:

1. an assignment that meets the requirements of 37 C.F.R. §7.23(a) (see TMEP §1906.01(a)(i)); or
2. a security interest or other restriction of a holder’s right to dispose of an international registration (or the release of such a restriction) that meets the requirements of 37 C.F.R. §§7.24(a) and (b) (see TMEP §1906.01(b)).

37 C.F.R. §7.22.

1906.01(a) Change in Ownership of International Registration

The IB will record a change in ownership by assignment, merger, court decision, or operation of law, at the request of the holder, the Contracting Party of the holder, or an interested person. Article 9; Common Reg. 25(1)(a)(i). The change may relate to some or all of the goods/services in some or all of the designated Contracting Parties. A fee is required.

Most requests to record changes of ownership must be filed directly with the IB. 37 C.F.R. §§7.22 and 7.23. There is a form available on the IB website at http://www.wipo.int/madrid/en/. The IB does not require copies of assignments or other supporting documents. See TMEP §1906.01(a)(i) regarding the limited circumstances in which a request to record a change in ownership may be filed with the IB through the USPTO.
MADRID PROTOCOL

1906.01(a)(i) Requirements for Submitting Changes in Ownership of International Registration Through the USPTO

The USPTO will accept for submission and forward to the IB a request to record a change of ownership only if all of the following conditions have been met:

1. The assignee cannot obtain the assignor’s signature on the request to record the change;
2. The assignee is a national of, is domiciled in, or has a real and effective industrial or commercial establishment in the United States;
3. The assigned goods/services must apply to the designation to the United States.

37 C.F.R. §7.23.

No other requests to record changes of ownership can be filed through the USPTO. 37 C.F.R. §§7.22 and 7.23.

A request to record a change of ownership filed through the USPTO must include:

- The international registration number;
- The name and address of the holder of the international registration;
- The name and address of the assignee of the international registration;
- A statement that the assignee: (i) is a national of the United States; (ii) has a domicile in the United States; or (iii) has a real and effective industrial or commercial establishment in the United States. Where an assignee’s address is not in the United States, the assignee must provide the address of its U.S. domicile or establishment;
- A statement that the assignee could not obtain the assignor’s signature for the request to record the assignment;
- An indication that the assignment applies to the designation to the United States;
- A statement that the assignment applies to all the goods/services in the international registration, or if less, a list of the goods/services in the international registration that have been assigned that pertain to the designation to the United States; and
- The USPTO transmittal fee required by 37 C.F.R. §7.6.
37 C.F.R. §7.23(a).

The USPTO currently does not have a TEAS form available for requests to record a change of ownership of an international registration. A holder must use the official IB form MM5 available on the IB website at: http://www.wipo.int/madrid/en. The IB will not accept paper requests that are not presented on the official IB form. The form cannot be handwritten. Comm Regs. 25(1)(a); Madrid Admin. Instr. §4(a). The holder should complete the form online, print the completed form and submit it to the USPTO by mail, hand delivery or courier services.

The completed form submitted through the USPTO must be mailed to:

Commissioner for Trademarks
P.O. Box 16471
Arlington, VA  22215-1471
Attn: MPU

37 C.F.R. §§2.190(e) and 7.4(b). Requests to record changes of ownership may be delivered by hand or courier to the Trademark Assistance Center at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c).

Requests to record changes of ownership cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(4).

If a request to record a change of ownership is mailed to the USPTO via the Express Mail Service of the USPS, the USPTO will deem that the request to record was submitted on the day it was deposited as Express Mail, provided that the holder complies with the requirements for correspondence sent by Express Mail set forth in 37 C.F.R. §2.198. See TMEP §305.03 regarding the requirements for submission of documents by Express Mail.

The holder should include a self-addressed, stamped postcard with the paper-filed request to record a change of ownership. Upon receipt, the USPTO will place a label indicating the receipt date on the postcard and return it to the holder.

If the request meets the requirements of 37 C.F.R. §7.23(a), the USPTO will forward it to the IB. 37 C.F.R. §7.23(b). If the request does not meet these requirements, the USPTO will not forward the request to the IB, and will notify the holder of the reasons. The USPTO will not refund the transmittal fee. 37 C.F.R. §7.23(c).

If the IB determines that a request to record a change sent through the USPTO is irregular, the IB will notify both the USPTO and the holder. Common Reg. 26(1). The holder must file a response to any notice of
irregularity with the IB; the response cannot be filed through the USPTO. 37 C.F.R. §7.23(d).

Section 10 of the Trademark Act and 37 C.F.R. Part 3 do not apply to assignments of an international registration. 37 C.F.R. §7.22.

1906.01(a)(ii) International Fees for Recording Changes of Ownership of International Registration

The international fee for a request to record a change of ownership must be paid directly to the IB in Swiss currency either before or after submission of the request to record. 37 C.F.R. §7.7(c). However, fees paid after the document is received by the IB could result in a notice of irregularity. Holders submitting requests to record a change of ownership through the USPTO (see TMEP §1906.01(a)(i)) may submit a bank check for international fees in Swiss francs made payable to the IB with the request to record. The USPTO will forward the check with the request to record to the IB.

See TMEP §1903.02 regarding payment of international fees.

1906.01(a)(iii) Effect of Change of Ownership of International Registration

The validity of a change in ownership with respect to a particular Contracting Party is governed by the law of that Contracting Party. The Office of a designated Contracting Party may declare that a change in ownership has no effect in its territory. The declaration must be sent to the IB within 18 months of the date of IB’s notification of the change. Common Reg. 27(4).

1906.01(a)(iv) Dividing an International Registration After Change of Ownership With Respect to Some But Not All of the Goods

When ownership of an international registration changes with respect to some but not all of the goods/services for all designated Contracting Parties, the IB will create a separate new international registration for the goods/services that have been transferred, and notify the USPTO accordingly. See the IB’s Guide to International Registration, Para. B.II.65.01 (2004).

See TMEP §1110.08 regarding division of a pending §66(a) application after ownership of an international registration has changed with respect to some, but not all, of the goods/services, and §1615.02 regarding division of a registered extension of protection to the United States after ownership of an international registration has changed with respect to some, but not all, of the goods/services.
1906.01(b) Restriction of Holder’s Rights of Disposal

Under Common Reg. 20(1)(a), a holder of an international registration or a Contracting Party of the holder (i.e. a Contracting Party in which the holder is a national, is domiciled, or has a real and effective business or commercial establishment) may inform the IB that the holder’s right to dispose of the international registration has been restricted in whole or in part. Under Common Reg. 20(1)(b), the Office of any designated Contracting Party may inform the IB that the holder’s right of disposal has been restricted in the territory of that Contracting Party. Examples of restrictions on the holder’s right to dispose are security interests, and court orders concerning the disposal of the assets of the holder.

The USPTO will accept for submission and forward to the IB a request to record a restriction of a holder’s right to dispose of an international registration, or the release of such a restriction only if all of the following conditions have been met:

1. (i) the restriction is the result of a court order; or (ii) the restriction is the result of an agreement between the holder of the international registration and the party restricting the holder’s right of disposal, and the signature of the holder of the international registration cannot be obtained;

2. The party who obtained the restriction is a national of, is domiciled in, or has a real and effective industrial or commercial establishment in the United States;

3. The restriction or release applies to the holder’s right to dispose of the international registration in the United States; and

4. The restriction or release must apply to the designation to the United States.

37 C.F.R. §7.24(a).

All other requests to record restrictions must be filed directly with the IB. 37 C.F.R. §§7.22 and 7.24(a).

A request to record a restriction filed through the USPTO must include:

- The international registration number;
- The name and address of the holder of the international registration;
- The name and address of the party who obtained the restriction;
- A statement that the party who submitted the request: (i) is a national of the United States; (ii) has a domicile in the United States; or (iii) has a real and effective industrial or commercial establishment.
in the United States. Where a party’s address is not in the United States, the party must provide the address of its U.S. domicile or establishment;

- A statement that (i) the restriction is the result of a court order, or (ii) where the restriction is the result of an agreement between the holder of the international registration and the party restricting the holder’s right of disposal, a statement that the signature of the holder of the international registration could not be obtained for the request to record the restriction or release of the restriction;

- A summary of the main facts concerning the restriction;

- An indication that the restriction, or the release of the restriction, of the holder’s right of disposal of the international registration applies to the designation to the United States; and

- The U.S. transmittal fee required by 37 C.F.R. §7.6.

37 C.F.R. §7.24(b).

A request to record a restriction or release submitted through the USPTO must be mailed to:

Commissioner for Trademarks
P.O. Box 16471
Arlington, VA  22215-1471
Attn: MPU

37 C.F.R. §§2.190(e) and 7.4(b). Requests to record restrictions or releases may be delivered by hand or courier to the Trademark Assistance Center, at James Madison Building – East Wing, Concourse Level, 600 Dulany Street, Alexandria, Virginia, Attention: MPU. TAC is open 8:00 a.m. to 5:00 p.m. Eastern Standard Time, Monday through Friday, except on Federal holidays within the District of Columbia. 37 C.F.R. §7.4(c).

Requests to record restrictions or releases cannot be filed by fax. 37 C.F.R. §§2.195(d)(5) and 7.4(d)(5).

If a request to record a restriction or release is mailed to the USPTO via the Express Mail Service of the USPS, the USPTO will deem that the request was submitted on the day it was deposited as Express Mail, provided that the holder complies with the requirements for correspondence sent by Express Mail set forth in 37 C.F.R. §2.198. See TMEP §305.03 regarding the requirements for submission of documents by Express Mail.

If the request meets the requirements of 37 C.F.R. §7.24(b), the USPTO will forward it to the IB. 37 C.F.R. §7.24(c). If the request does not meet these requirements, the USPTO will refuse to forward the request to the IB, and will
notify the holder of the reasons. The USPTO will not refund the transmittal fee. 37 C.F.R. §7.24(d).

If the IB determines that a request to record a restriction sent through the USPTO is irregular, the IB will notify both the USPTO and the holder. Common Reg. 26(1). The holder must file a response to any notice of irregularity with the IB; the response cannot be filed through the USPTO. 37 C.F.R. §7.24(e).

Section 10 of the Trademark Act and 37 C.F.R. Part 3 do not apply to restrictions of a holder’s right to dispose of an international registration. 37 C.F.R. §7.22.

1906.01(c) Change of the Holder’s Name or Address

A request to record a change of the holder’s name or address must be filed with the IB; it cannot be filed through the USPTO. 37 C.F.R. §7.22. There is a form on the IB website at http://www.wipo.int/madrid/en/. Article 9bis; Common Reg. 25(2).

1906.01(d) Change of Name or Address of Representative

A request to record a change of the representative’s name or address must be filed with the IB; it cannot be filed through the USPTO. 37 C.F.R. §7.22. There are forms on the IB website at http://www.wipo.int/madrid/en/. See Common Reg. 36(i).

See TMEP §§603.01(a) and 1904.02(f) regarding the correspondence address in a request for extension of protection to the United States.

1906.01(e) Limitation, Renunciation, Cancellation of International Registration

Requests to record a limitation, renunciation or cancellation of an international registration must be filed with the IB; they cannot be filed through the USPTO. 37 C.F.R. §7.22. There are forms for such requests on the IB website at http://www.wipo.int/madrid/en/. Under Article 9bis, a holder may record the following restrictions:

- Limitation of the list of goods/services with respect to some or all of the designated Contracting Parties (Common Reg. 25(1)(a)(ii))

- Cancellation of the international registration with respect to all the designated Contracting Parties for some or all of the goods/services (Common Reg. 25(1)(a)(v))
• Renunciation with respect to some but not all of the designated Contracting Parties for all the goods/services (Common Reg. 25(1)(a)(iii)).

The office of a designated Contracting Party may declare that a limitation has no effect in its territory, e.g., because it considers that the change requested is an extension rather than a limitation. Such declaration must be sent to the IB within 18 months of the date of the IB’s notification of the limitation. Common Reg. 27(5).

1906.01(f) Correction of Errors in International Registration

The IB will correct errors in an international registration at the request of the holder or the Office of Origin. Common Reg. 28(1). Requests to correct errors in international registrations in which the USPTO was the Office of Origin must be filed directly with the IB, unless the error was made by the USPTO.

The office of a designated Contracting Party may declare in a notification of provisional refusal that protection can no longer be granted to an international registration as corrected. A new refusal period under Article 5 of the Protocol and Common Regs. 16-17 starts to run from the date of the correction, but only in respect to grounds that did not exist prior to the correction. Common Reg. 28(3).

1906.01(g) Merger of International Registrations

Where the same party is the holder of two or more international registrations of the same mark due to a partial change in ownership, the party may request the IB to record a merger of the registrations. Common Reg. 27(3). The request must be filed with the IB; it cannot be filed through the USPTO.

37 C.F.R. §7.22.

1906.01(h) License

Under Common Reg. 20bis(1), a holder may file a request to record a license, a request for amendment of the recording of a license, or a request for cancellation of the recording of a license. Requests to record a license, or to cancel or amend the recording of a license, cannot be filed through the USPTO. 37 C.F.R. §7.22. There are forms for these requests on the IB website at http://www.wipo.int/madrid/en/. A designated Contracting Party may declare that the recording of a license has no effect in its territory. The declaration must be sent within 18 months of the IB’s notification of recording of the license. Common Reg. 20bis(5).
Changes That Cannot Be Made to International Registration

Mark in International Registration Cannot Be Changed. There is no provision for a mark to be amended in any way, at any time, even if the mark in the basic application or basic registration changes. Guide to International Registration, Para. B.II.69.02 (2004).

Goods/Services in International Registration Cannot be Expanded. It is not possible to expand the list of goods/services, even if the added goods/services were listed in the basic application or registration. Guide to International Registration, Para. B.II.69.03 (2004).
